Otro candela despues di esun di Bubali Plas

Diaranson anochi den menos di 2 ora cu Brandweer a termina cu a candela di Bubali Plas ariba Avenida Nelson O.Oduber, nan ta hayanan ta bolbe sali pa un otro candela mas panort.

Rond di 7:20 Brandweer ta sali combati e prome candela na Bubali Plas, algo prome cu 9'or di anochi informacion ta drenta di un otro candela, e biaha aki den e skina cerca di Marriot Courtyard antes The Mill.

Un candela basta grandi cu na prome instante a causa conmocion debi na e grandura.

Mesora polis a bay over na cera e camindanan pa asina evita aglomeracion di trafico den e area y si mester a bay over na evacua. E parti ultimo no tawata necesario, por a mira guestnan y tambe empleadonan sinta ariba parkeerplaats contemplando e candela y e trabou di brandweer.

Tres ambulance a standby altura di e ex House of Cheng pa si encaso mester drenta den accion, pero no tawata necesario. A resulta cu tawata trata di un candela di mondi, cu segun informacion circulando ta cendi door di un hende.

Un Pyromaan cu no ta pensa e daño cu e ta causa na nos medio ambiente, pensa ariba tur e bestianan cu ta biba den e matanan. Nos ta spera cu autoridad por pone man mas lihe cu ta posibel ariba e individuo/nan aki.

PYROMAAN ACTIVO

Bubali Plas ta cendi

AYERA anochi den careda di 7:30 Brandweer a sali pa un candela den Bubali Plas. E candela a origina memey di Avenida Nelson O.Oduber. Mirando cu ta anochi, e candela tawata bin visibel pa automobilistanan riba e caminda. Algun minuut despues cu e prome unidad di Brandweer a presenta a yega un segundo unidad pa combati e candela, evitando pa sigui causa daño.

Minister Glenbert Croes ta amplia su “ultimatum” pa WEB y ELMAR

Dialuna ultimo, Minister Glenbert Croes a fiha un posicion ainda mas “fuerte” cu loke el a haci na luna di Maart di e aña aki, contra di e companianan estatal di NV Elmar y WEB Aruba NV.

E mandatario kier scucha solucion, e mandatario kier mira accion loke ya e dos companianan ta haciendo caba pero aki tin cu reconoce cu e mandatario a dicidi pa amplia e tempo pa loke ta su di dos ‘ultimatum’ cu e ta duna e dos companianan aki relaciona cu e problema cu coriente cu ta sigui cay afo den varios bario pa algun siman caba.

E situacion cu tin ta “inaceptabel” pa Gabinete Wever Croes II ya cu pueblo ta wordo perhudica formalmente y pa colmo el a muestra cu esaki ta sosode den un periodo caminda tin un calor sofocante pasando riba e isla.

Dialuna Minister Glenbert Croes a stipula cu riba un periodo di 30 dia, WEB y Elmar tin cu presenta cu presenta un plan di accion pa muestra con lo bay atende cu e situacionnan aki caminda tur dia coriente ta cay afo rond di e isla.

E crisis di coriente ta existi pa mas c’un luna caba caminda fuera cu den algun bario coriente ta cay afo pa un of otro motibo pero tin diano cu henter e isla a perde coriente den un tipo di ‘black-out’ pero aki tin cu muestra cu durante gran parti di e crisis di energia aki, Minister Glenbert tabata den exterior di vacacion cu su famia.

E menasa aki sinembargo no ta e prome cu e Minister aki a manda den direccion di e dos companianan estatal ya cu cinco luna pasa tambe e mandatario a pone un ultimatum pa e dos compa-

anan aki cual tabata uno cu duracion di 2 dia y esaki a ser emiti dia 29 di Maart. Den e ultimatum aki e mandatario a exigí Director di e dos companianan aki pa presenta un “proposicion” con lo bay baha bek e aumento di tarifa di awa y coriente cu algun dia prome a tuma luga pero nunca mas e prijs a baha pa pueblo.

E aumento di tarifa di awa y coriente mester a keda valido te dia 1 di Februari di e aña aki caminda lo mester a reduci esaki pero nunca mas a ehecuta e ultimatum aki, ya cu realmente Minister Glenbert Croes no por a hustifica cu argumento valido con lo tin cu baha a

tarifanan aki.

Awor e siman aki Minister ta manda otro ultimatum pa e companianan aki pa nan presenta un tipo di plan di accion pa atende cu e problema cu cada bes coriente ta cay afo pero esaki ta algo cu e dos companianan aki ta trahando ariba caba y a splica e asunto di kabel cu a wordo corta durante trabou di cobamento den Oranjestad.

No por haci mucho cos mas y pa ora cu e 30 dia aki finalisa, kisas ya caba tanto WEB como Elmar tin e asunto aki bou di control caba mustrando cu no tabatin mester di un ultimatum pa cumpli cu esaki.

Abogado ta cuestiona

Investigacion contra funcionario cu a malversa 1.3 miyon florin

Recientemente Ministerio Publico pa medio di su fiscal mayor, a cuestiona e forma con prensa ta atende cu credibilidad di Ministerio Publico y tambe Minister di Husticia pa motibo cu algun medio a bin a cuestiona nan forma di hiba investigacion den casonan penal.

Sinembargo siman pasa a bolbe presenta un caso caminda abogado di e funcionario publico F.M., ta cuestiona e forma con henter e investigacion a tuma luga y practicamente cuestiona algun conclusion cu Landsrecherche lo a actua den e proceso aki.

Siman pasa durante tratamento di e caso, Ministerio Publico pa medio di su fiscal a exigi un castigo di prizon di 4 aña di cual un aña ta castigo condicional contra di e acusado Filomena M. pero abogado Desiree Croes a presenta varios punto caminda ta trece hopi duda riba e trabou haci pa Landsrecherche pero tambe pa e forma di procede di Ministerio Publico.

No ta prome bes cu tanto Landsrecherche como Ministerio Publico, ta dicidi di tuma un “otro rumbo”

cu nan investigacion pa purba di condena un sospechoso pero esaki ta un proceso cu ta bayendo den rumbo no mucho positivo, ya cu semper den e sistema hudicial, ta enfatisa cu pruebanan presenta mester ta concreto y legal.

Segun Fiscal e acusado a gasta mas placa cu su salario como funcionario publico na DIMP ta permiti'e pa gasta pero e acusado a mostra y prueba pa medio di su abogado cu el a yega di gana na varios ocasion hungando placa den casino.

Pero Fiscal ta mostra cu loke por a saca afo cu e suma cu el a gana tampoco ta suficiente pa loke el a gasta den su bida diario y di famia, mustrandando un biaha mas con facil autoridadnan aki ta desvia di e hecho cu nan tin cu investiga.

Ministerio Publico ‘by now’ mester ta na altura di e cultura di e pueblo di Aruba, caminda principalmente den ultimo añanan, tur hende ta busca pa gana placa adicional, haciendo loke cu por, di cumpramento di catochi of Lotto pa Deporte, pa trata di gana algo extra.

Abogado Desiree Croes a presenta un escenario pa Hues caminda tin cosnan incorrecto a sosode durante di investigacion di e caso, ya cu control no tabata falta den e oficina di e sospechoso, cu presencia di varios camara, presencia di otro coleganan di DIMP caminda ningun hende a mira of sospecha algo incorrecto, mientras cu e sospechoso semper a haya su documentonan di control cu firma di e hefe.

Awor ta bin resulta cu a haya varios documento tras di algun ‘file kast’ cu supuestamente e sospechoso a sconde tras di e cashinan y no a raporta esakinan pero aki ta trata di un empleado cu tin 35 aña di servicio, sin cu nunca un keho a wordo entrega contra di su persona.

Nunca el a haya su mes involvi den un of otro caso sospechoso y a logra di traha duro pa e subi te na e posicion di hefe di caheranan y contra kende ningun dia tabatin un solo keho entrega.

Pa colmo abogado Croes a mostra cu den e periodo cu su cliente a bira malo y no a bay traha, diripiente a bin haya documentonan tras di un cashi, dunando indicacion cu pa algun aña, ningun hende a hala e cashinan aki, ningun hende a stofia tras di nan pero durante cu e sospechoso tabata cu AO, a bay busca tras di e cashinan.

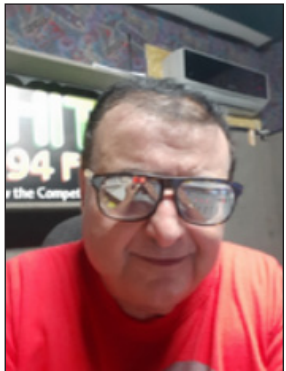

Den e oficina cu ta chikito pa e cantidad di hende cu ta trahando eyden, tambe tabata camaranan di seguridad y riba ningun grabacion tin algo cu ta sirbi como prueba cu e sospechoso lo ta esun cu a sconde e documentonan aki.

E intervencion di abogado Desiree Croes a crea un escenario di duda grandi den henter e investigacion contra di e sospechoso Filomena M. pero ta keda awor na Hues pa tuma un decision caminda husticia ta para riba tur cos.

Johnny Habibe, Director di e.o. Hit 94 a laga sa

“Pami ta basta”

Ayera merdia na final di e programa Pueblo na Palabra na Hit 94, e Director/Conductor di radio Hit 94 a anuncia cu pa otro aña lo no sigui mas cu e programa aki, cu ta conoci tambe como Parlamento di Pueblo. Motibo cu Johnny Habibe a duna ta, “mi ta fada; mi ta desapunta; mi no ta dispuesto pa sigui acepta menasa di ningun hende, incluso di su amigo y miembro di su famia”.

Habibe a papia caba cu su famia y su decision ta tuma. Lo

mester bay dicidi ainda kico lo haci cu e 2 permiso cu e tin pa radio, pasobra e ta pensa di bay biba den exterior. Constantemente e ta haya menasa tambe di DTZ, pa kita su vergunning di radio for di dje. Esaki no a bin solamente di e Partido na mando awor, esta MEP, pero tambe durante e periodo di AVP, pues nada nobo. Pero ultimamente e participantenan n’e programa, mas bien ta yama pa insulta otro. Esey no ta meta di e programa y p’esey miho e stop. E no ta mira cu pueblo ta dispuesto pa cambia di mentalidad.

Unabes cu Johnny Habibe a participa su decision, un cantidad di yamada a drenta p’e no stop cu e programa aki, pasobra e t’e unico radio cu ta habri su microfonnan pa pueblo expresa su mes. Ainda falta algun luna pa aña caba, de pronto Johnny Habibe por haya un otro idea pa maneha e programa tan gusta aki, y laga pueblo tog cu un forma pa expresa su mes.

OPINION PUBLICO

Recordar es vivir!

Ta Ursell Arends a cuminsa lubida caba cu e a ENFATIZA cu mester pone moratorium y stop IberoStar, Secrets, Hyatt Place, Embassy Suites etc.!!!???

Y awor no ta ni hik riba tema di Secrets Resort cu lo caba cu islanan di bubi cu ta area proteha den Parke Nacional Aruba y na unda FPNA tambe ta kedando keto keto.

Pero loke ta mas tristo di tur ta cu presidente di Aruba Birdlife Conservation, esta Greg Peterson tambe ta kedando keto keto riba Secrets Resort y islanan di bubi y Peterson ta consehero tras di cortina di Ursell Arends.

<https://raizaruba.com/moratorium-urgente-of-despedida-di-aruba/>

Wak con Greg Peterson a gaña cu el a logra para tur desaroyo pabou di Bubaliplas den corte na 2016. Awe 2023 FULL e strip pabou di Bubaliplas ta yena cu highrise resorts y Greg a hiba ningun desaroyo di hotel corte mas pa stop esakinan. Mescos cu e no a haci NINGUN caso den corte pa para Secrets Resort pa salba e islanan di bubi.

E cu Ursell Arends y FPNA por duna otro man pa no haci nada efectivamente pa salba islanan di bubi y forsa e moratorium proponi dor di RAIZ mes, ariba conseho di Aruba Birdlife Conservation na 2018.

Caso di “Money talks, bullshit walks” tin aki? Pasobra otro splicacion drechi no tin!!!

Ata e mentira di 2016

“Op 11 juli maakte Vogelbescherming een klinkend succes van de Arubaanse collega’s bekend. Zij kregen van de rechter gelijk; in de randzone van het Belangrijke Vogelgebied Bubaliwetlands mogen geen illegale bouwactiviteiten worden gedoogd. Op straffe van een dwangsom moet de natuur ter plaatse hersteld worden.”

Het parlement van Aruba staat unaniem achter de natuurbeschermers en wil dat zestien kwetsbare natuurgebieden – waaronder enkele belangrijke vogelgebieden – worden toegevoegd aan het Nationale Park Arikok. Daarmee is de bescherming beter gegarandeerd.

De regering van Aruba wil echter de vrijheid hebben die gebieden desgewenst ook voor andere doeleinden te kunnen ‘ontwikkelen’ (lees: bebouwen). In reactie op de rechtelijke uitspraak wil men nu het Ruimtelijke Ontwikkelingsplan van Aruba open breken en de beschermde status van verschillende gebieden verkleinen of op heffen. Aruba BirdLife Conservation heeft nieuwe rechtszaken aangekondigd en is een handtekeningactie begonnen. Die moet het kabinet duidelijk maken dat het de wens van het parlement dient te respecteren.”

Minister Glenbert Croes confundi

Ta su gobierno a pone 'bloki' na pia y den cartera di pueblo

Analizando declaracionnan di Minister di Energia, Glenbert Croes e siman aki den conferencia di prensa di gobierno, ta imposibel pa no recorda un frase cu e ex lider di MEP, Nelson Orlando Oduber tabata haci den pasado ora cu e tabata activo den politica.

Segun sr Oduber, den politica aki na Aruba, "tin hende cu kier bay shelo sin muri" y e expresion aki a cuadra completamente den su contexto cu e forma con Minister Glenbert Croes ta pretende di influencia pensamiento di un pueblo cu a bin ta sinti e peso grandi di cantidad di medida.

Dialuna ultimo, Minister Glenbert Croes durante di conferencia di gobierno, el a haci un suplica na "esunnan" cu no a di acuerdo cu e maneho cu el a bin ta hibando den nomber di su gobierno, pa loke ta trata su esfuersonan pa reduci prijs di awa y coriente pa yuda pueblo.

Esunnan aki por ta prensa, e grupo por ta politiconan di oposicion pero tambe e grupo por ta pueblo mes, kendenan lo no ta di acuerdo cu e maneho di e mandatario di gabinete Wever Croes II: "Mi ta consciente cu den e mundo politico di Aruba, semper lo topa cu hendenan cu ta di acuerdo cu nos of esunnan cu no ta di acuerdo.

E ultimo aki semper lo pone bloki den caminda pa nos no logra pero nos determinacion, nos perseverancia, ta duna resultado na final di dia pa nos pueblo y esey mi ta spera di comproba, ora cu yega momento pa anuncia logronan."

Sinembargo lo ta na su luga pa Minister di Energia duna pueblo un fecha caminda su gobierno lo reduci e prijs di awa y coriente, ya cu ningun caminda y ningun momento, su persona ta menciona un 'time line' pa cumpli cu su promesa na pueblo.

Ningun hende ta pone bloki na pianan di Glenbert Croes den su esfuerso pa baha prijs di awa y coriente, al contrario realidad di e hecho ta su gobierno y su persona tin no solamente pia di pueblo den cement pero tambe tin cement den cartera di pueblo ya cu practicamente not a resta mucho fin di luna pa hiba un bida respetuoso manera tur hende merece.

AWEMainta kier duna un 'timeline' di e esfuerso di Minister Glenbert Croes for di 2022 ora cu el a sigura pueblo cu lo baha prijs di awa y coriente.

6 JULI 2022:

Minister Glenbert Croes ta muestra cu aumento di awa y coriente mester bin pero na un manera husto cu pueblo por paga y el a rechasa e decision cu WEB a tuma y den representacion di gobierno cu ta accionista den e compania aki, e mester actual pa SUSPENDE e decision cu WEB a tuma!

29 JULI 2022:

Gobierno di Glenbert mes ta anuncia aumento drastico di awa y coriente cu 23.9% cual ta casi un luna despues cu Minister a bisa cu e aumento aki ta inaceptabel.

16 AUGUSTUS 2022:

Minister Glenbert Croes ta anuncia cu ta reuniendo cu gobierno Mericano mas tanto cu e departamento di OFAC, cu ta 'Office of Foreign Assets Control,' pa Aruba por haya e licencia pa por compra HFO for di Venezuela pa un periodo di 2 aña y mey te ora cu e proyecto di EAGLE LNG ta cla pa por cuminsa suministra gas natural na WEB.

10 OCTOBER 2022:

Minister Glenbert Croes a anuncia cu e ta saliendo di biahe pa Ecuador c'un delegacion cu tin como obhetivo haya un prijs bentahoso pa compra di combustibel y a muestra di ta purbando mescos e esfuerso for di Venezuela, pa haya crudo compra na un prijs abou cu lo permiti reduccion di prijs di awa y coriente.

24 JANUARI 2023:

Minister Glenbert Croes ta confirma cu e tin compromiso cu pueblo di Aruba pa baha prijs di awa y coriente e aña aki ainda mustrando cu e lo bolbe biaha pa Ecuador pa sigui atende cu e posibilidad di ricibi fuel oil na prijs abou for PetroEcuador.

1 MAART 2023:

Minister Glenbert Croes a solicita for di e companianan di WEB y Elmar un proposicion pa baha tarifa di awa y coriente y cu e lo presenta e proposicion aki den Consejo di Minister riba reduccion di prijs di awa y coriente.

5 SEPTEMBER 2023:

Minister Glenbert Croes ta pidi pa no pone bloki na su pianan den su esfuerso cu e ta haciendo pa baha prijs di awa y coriente!!!!

Ex Minister Otmar Oduber:

Parlamento ta na soño mientras un proyecto miyonario ta core peligro na San Nicolas

Claim miyonario ta menasa Aruba pa motibo di falta di responsabilidad

Tur gobierno a priminti desaroyo pa San Nicolas, awe cu tin desaroyo no ta mira accion. Asina e ex minister cu tawata encarga cu Turismo y infraestructura a duna di conoce.

Secrets Hotel ta den publicidad mirando cu tin un caso cu a keda lanta contra e proyecto y den e caso aki mas ainda contra gobierno di Aruba. E proyecto aki y su consecuencianan tin un impacto enorme pa nos isla.

Ta haya hopi falta di miembronan di parlamento cu no ta critico, pero tambe di otro politiconan cu no ta activo pa puntra y informa nan mes di kico ta pasando cu un desaroyo cu nos tur sa cu desde cu lago a bandona Aruba den añanan 1985 -1986, o sea no tabata solamente un gobierno pero tabata tur gobierno, cu a destina e area aki pa un desaroyo turistico y a focus pa bin cu un hotel den e area aki conforme e diferente master plan nan cu a keda prepara.

Den pasado hopi intento a wordo haci pa medio di diferente minister di turismo y economia nan pa logra atrae un proyecto di e magnitud aki como catalisado di un jump start pa e economia pariba di nos isla. Na e momentonan aki tin un proyecto cu ta andando y lamentablemente no ta mira for di parlamento e iniciativa pa yama minister y pa yama e grupo y esnan cu ta responsabel pa asina haya un bista di kico ta pasando cu e hotel Secrets.

Por a compronde cu instancianan di gobierno lo a contesta riba obheccionnan cu tabatin di parti di dos di e bisiñanan di e proyecto aki, esaki ta significa cu ta cumpli cu e veredicto di hues y cu e proyecto di Secrets lo por a continua den e dianan aki. Esaki ta puntonan importante y cu lamentablemente no ta bin afo den e discusion den e momentonan aki.

Secrets Aruba ta un proyecto cu a cumpli y a pasa den henter e trayectoria unda cu a cumpli cu tur permiso y tur e exigencia cu tabatin di parti di gobierno pa por ehecuta un proyecto cu Aruba mes ta bin ta busca pa hopi tempo y awo cu Aruba ta casi logra pa e proyecto aki ta un realidad na Aruba e proyecto ta para cu un menasa pa pais Aruba. Den e caso aki ta trata un menasa di un claim miyonario cu por tuma luga pa falta di cumplimiento di parti di Pais Aruba. Esaki no ta pa motibo directo di gobierno, sino cu dos bisiña

a busca nan derecho via ley pa por salvaguardia nan derecho y a bay corte . Gobierno na su turno mester a cumpli cu e sentencia aki y na unda ya caba a contesta e obheccionnan aki di e bisiñanan y e desaroyadonan por a continua siman pasa cu e trabaonan.

Sinembargo esaki no kiermen cu e obstaculonan a termina, pero ta hopi straño cu den parlamento di Aruba, fraccion di AVP , MEP ,RAIZ y accion 21 no tin ningun pregunta riba esaki y no ta haci ningun expresion tampoco. Ex minister Otmar Oduber ta lamenta cu parlamento mes no ta activo y no ta muestra nan sosten pa un proyecto asina grandi pa e pueblo di San Nicolas. Esaki ta un proyecto cu despues cu lago a laga Aruba lo bira e proyecto mas importante pa e desaroyo di henter e barrio y henter comunidad di San Nicolas pa loke ta trata empleo y desaroyo economico den su totalidad.

Na momento cu e Hotel Secrets mester habri su portanan e impacto ta bay ta asina grandi cu varios negoshinan na San Nicolas lo cuminsa habri, pero tambe e tiendanan cu ainda tey y ta pasando duro na San Nicolas por haya un alivio, unda cu practicamente cu presencia di Hotel Secrets na San Nicolas lo ta un solucion pa por crea un economia floreciente pa pariba di Aruba, pero lamentablemente no ta mira parlamento ta busca un manera pa haci algo pa haci e proyecto aki posibel.

No ta un secreto cu tur campaña, politiconan ta dirigi nan mes pa San Nicolas , e barrio di mas grandi di Aruba y cu tin mas votado. Na momento cu yega San Nicolas tur gobierno a priminti desaroyo, pero awe cu tin un desaroyo no ta mira accion di parlamento , cu excepcion di parlamentario Alvin Molina cu si a haci algun pregunta.

Ex Minister Otmar Oduber ta haci un apelacion no solamente na gobierno pa sostene e proyecto aki na un manera mad pro activo, pero sigur tambe Parlamento cu por ta hopi mas activo apoyando esaki. Gobierno mester percura pa inicia un dialogo cu e dos bisiñanan aki, buscando un alternativa pa nan inkietud y buscando un solucion pa esakinan. Den e caso aki e bienestar general ta esun cu mester prevalece pa e pueblo di San Nicolas na prome luga , pero sigur tambe pa henter Aruba.

Minister Arends ta confirma cu trahadonan di SABA ta ricibi rechttrekking e aña aki

No tin duda cu actualmente tin un cuenta habri cu e trahadonan di SABA y segun Minister Arends esaki lo wordo paga e aña aki. Esey ta locual e mandatario encarga cu Asuntonan di Adulto Mayor a confirma den Parlamento di Aruba di-aluna, durante tratamiento di e presupuesto supletorio 2023.

Pa hopi aña tin un disputa entre e tres partidonan, esta Gobierno, gerencia di SABA y trahadonan di SABA. Den pasado Gobierno a haci compromiso di lo paga e trahadonan di SABA un suma cu awe ta yega na aproximadamente 3 miyon florin. Esaki pa un asina yama “rechttrekking”. Gobierno por comproba cu e fondonan a wordo traspasa pa e doño di trabou, esta gerencia di SABA pa nan por paga e trahadonan. Pero gerencia di su banda ta bisa cu nunca a ricibi e fondonan ey. Mientrastanto e trahadonan a keda dal den bashi.

Durante tratamiento di presupuesto e fraccion di AVP a pidi pa Gobierno di Aruba pasa 3 miyon florin un biaha mas, indicando cu no ta necesario investiga kico a bay robes e prome biaha. Minister Arends a splica cu esaki no ta un forma responsabel pa anda cu fondonan publico. E manera corecto pa atende cu esaki ta pa apunta partidonan independiente y laga nan confirma kico exacto a pasa cu e fondonan cu Gobierno a manda. Unabes tin claridad, por splica Parlamento ta unda e fondonan publico a bay. No menos cu tres departamento di Gobierno a confirma cu e placa a sali for di caha di Gobierno. P’esey a laga haci un stukkenonderzoek independiente y for di eynan a bira necesario instala un werkgroep independiente.

E werkgroep tambe a conclui cu mester un doorlichting di e administratie di SABA. Minister Arends a indica cu e investigacion lo wordo haci di tur forma, aunke Parlamentario Wyatt Ras (AVP) den defensa di gerencia di SABA no ta mira necesidad pa investiga nada.

“Un werkgroep ful independiente tambe a yega na e conclusion cu mester un investigacion (doorlichting) y nan a bin cu advies pa nos haci esey. Esaki ta un paso necesario pa duna claridad den e asunto”, segun Minister Arends a splica. Sin doorlichting e disputa lo keda un bay-bin entre Gobierno di Aruba y gerencia di e fundacion.

Minister Arends a bisa cu tur colega ministernan ta na altura cu Gobierno tin un cuenta habri, pero no cu SABA, sino cu e trahadonan di SABA. Tur minister sa tambe cu unabes tin claridad Gobierno mester cumpli cu e trahadonan. Na prome lugá lo purba yega na e fondonan cu tin den presupuesto,

pero si esey no ta posibel Minister Arends lo pidi Parlamento aproba fondo adicional. “Si esey ta e caso mi lo conta cu e ora ey tambe lo tin sosten di Parlamento completo pa por yega na e fondonan aki pa e trahadonan, pasobra ta nan derecho esaki ta.”

Ta di lamenta cu oposicion, cu excepcion di fraccion di MAS y Parlamentario Independiente Sr. Rycond Santos do Nascimento, a usa lenguahe inflamatorio durante e reunion di parlamento pa instiga trahadonan, bisando cu Gobierno kier “castiga” nan.

Crea panico y rabia no ta yuda resolve e asunto. Tambe ta un lastima e forma con e mesun grupo den oposicion awe ta exige pa Gobierno pasa mas fondonan publico, sin cu tin ningun tipo di claridad riba kico a sosode cu e placa cu ya a bay. E tendencia pa malgastamento no a cambia.

“Te awor aki no tin claridad, y si tin mester di fondo adicional, mi no por tira algo pa Parlamento y pidi Parlamento aproba sin base,” Minister Arends a bisa, indicando cu e la anuncia caba cu e lo bin Parlamento pa fondonan adicional si ta necesario. Pa e trahadonan e asunto mester keda resolvi e aña aki.

Minister Rocco Tjon:

A bishita KIA den cuadro di renobacionnan cu a tuma luga

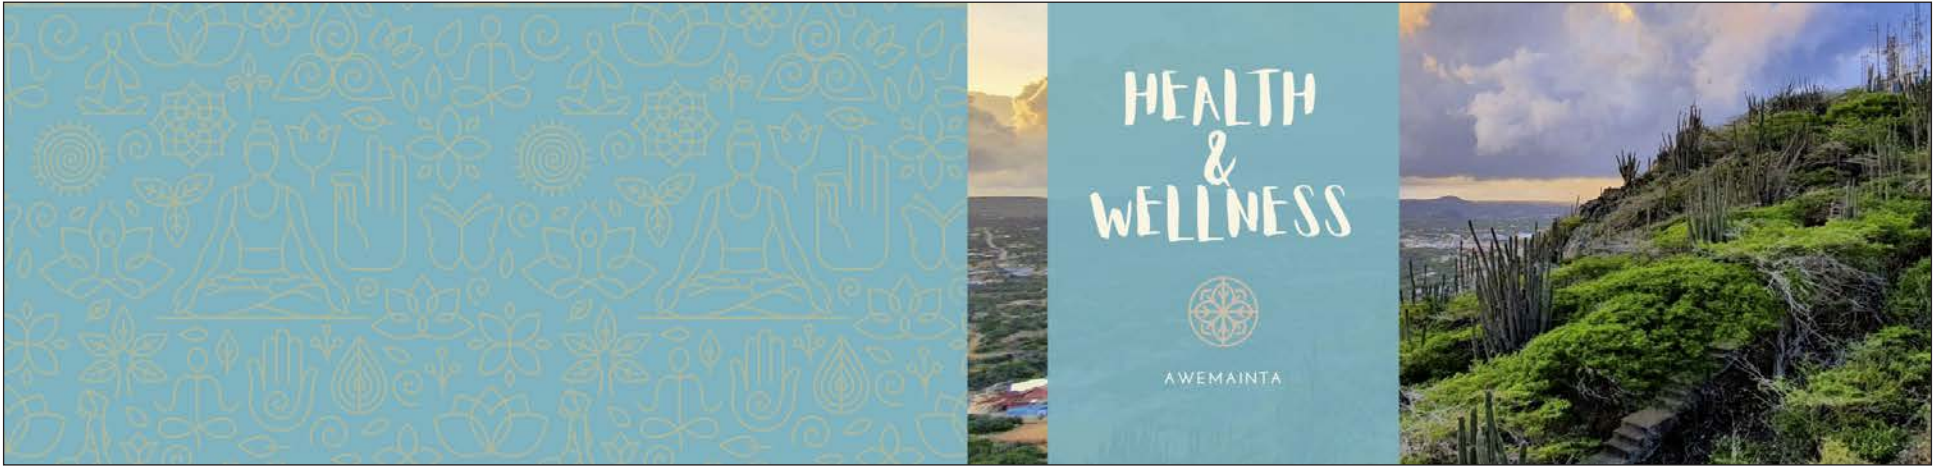

Minister di Husticia y Asuntonan social sr. Rocco Tjon, a bishita e instituto coreccional di Aruba, caminda a haya un rondleiding di e ekipo di maneho actual, mirando cu tin diferente renobacionnan cu a tuma luga. Entre otro, e Centro di Motivacion (CDM), a wordo renoba por completo, y e plan ta pa e parti aki bay wordo uza bek. Consecuentemente otro renobacionnan tambe lo bay tuma luga paden di KIA pa asina crea binti cupo adicional di cel a corto plaso, caminda por percura pa detene hende mirando e scarsedad di capacidad di detencion cu tin actualmente.

Hunto cu e ekipo di maneho, a elabora amplio riba e proceso y proyecto pa yega na un instituto coreccional nobo. E dossier completo a wordo entrega na Hulanda dos siman pasa, y awo ta en espera di un contesta di Hulanda pa asina por inicia cu e proceso di wak con nos por logra yega na financiamiento pa cu esaki a largo plaso, a traves di un bon colaboracion. Pues, di e forma aki e proceso lo por inicia, mirando cu ta trata di un proceso cu un duracion bastante largo.

Banda di esaki, a wak e avancen pa loke ta e cuido basico forensico, di cual manera ta conoci, tin diferente palabracionnan bilateral cu Hulanda cual a wordo haci riba e tematica aki. Adicionalmente, den cuadro di e Justitieel Vierpartijenoverleg (JVO), e cuido forensico cu nos mester brinda na detenido y hobennan ta un topico di suma importancia. E aspecto aki, mas y mas ta wordo treci padilanti den rapportnan manera e rapport di CPT, pa cual motibo tin palabracionnan haci cu, a base di un proyecto piloto, nos ta bay percura pa brinda e cuido aki na un manera duradero na tur esnan cu tin mester di esaki.

Pa recapitula, e renobacionnan a keda cla, principalmente e diferente espacionan caminda e exper-tonan lo mester bay brinda e cuido basico forensico tambe ta cla, y awo e preparacionnan ta den ehecucion pa asina na comienso di 2024 e proyecto aki por inicia. Di e forma aki tambe ta duna atencion na e parti infrastructural como tambe e parti di personal, mirando cu e reorganizacion a keda cla. Pues, nos lo bay enfoca hopi riba e parti di cuido, cual como pais nos mester brinda na esnan cu ta cay cera, pa di e forma aki duna contenido real na e parti di resocializacion y reintegracion.

Luna di conscientisacion di Alzheimer

Biehes ta bin cu su defectonan. Y un di e cambianan cu e adulto mayor lo por cuminsa haya ta problema di memoria. Pero kico e ta nifica? E ta nifica cu tin un diferencia entre lu-bida un rato of lu-bida henter ora. Ora e problema di memoria ta aumenta y ta stroba e bida diario di e persona, ta importante pa investiga kico por ta e causa. Kisas tin problema psicologico. Pero kisas ta algo otro, algo mas serio manera demencia tipo Alzheimer. Lo mester haci test pa haya sa. E luna aki nos di AZV ta dedica na conscientisacion di e topico demencia, específicamente Alzheimer.

Alzheimer

E malesa Alzheimer ta e tipo di demencia cu mas hopi ta aparece. Mas o menos 70% di e personanan cu demencia tin e demencia tipo Alzheimer. Alzheimer ta cuminsa cu problemanan di memoria y ta desaroya su mes te cu na dado momento e persona ta bira completamente dependiente di otro. Generalmente e persona a sufri di problema of perdida di memoria pa un tempo caba; te ora cu e wordo diagnostica (test) como tal. E ta bira dificil pa e persona cu tin Alzheimer pa corda informacion nobo. E persona por puntra varios biaha pa dia e mesun cos. Of e ta lubida tur cita. Algun señal hopi evidente ta cu e persona ya no ta cuida su cas of medio ambiente mucho bon mas. Tambe e ta cuminsa negligia su cuido propio.

Kico ta causa Alzheimer?

Cerca e malesa di Alzheimer ta origina un exceso (acumulacion) di un cierto proteina den e celulanen nervioso di e cerebro, e asina yama beta-amiloide. E descomposicion di e proteina aki no ta bay bon. Investigadonan ta pensa cu pa motibo di acumulacion di e proteina ("plaques") aki, e

celulanen nervioso y e conexion entre e celulanen nervioso ta wordo destrui. Tambe ta 'nace' manera un tipo di obra di arte di proteina bruha ("tangles"/"tau") den e celulanen. Tur esaki ta haci e funcionamiento di e celulanen nervioso imposibel y e celulanen ta muri.

Desaroyo

Cerca algun persona e desaroyo di demencia tipo Alzheimer ta bay hopi lihe y cerca otro e ta bay poco poco. E ta importante pa realisa cu e desaroyo di e malesa (demencia tipo Alzheimer)

ta rekeri di decisionnan importante pa e persona (pashent) y su famia. Riba diferente tereno lo mester scoge kico ta bay haci. Por ehempel si tin cu regla e topico di finansa ora e mes no por mas. Pero tambe lo mester regla cosnan cu normalmente ta wordo considera simpel; awor lo bira un reto. Por ehempel con pa comunica cu e persona? Of con pa convence cu e mester baña paso el a lubida di haci esaki? Kico pa haci ora e bira ful dependiente di ayudo? Sigui nos di AZV (pa medio di nos pagina FB) henter e luna di september y haya sa mas tocante Alzheimer.

Candela den cas bandona na Dakota

Diaranson den oranan di mainta Brandweer y polis mester a bay dos biaha den Dakota. E prome biaha segun nos a compronde tawata den Caya Papa Juan Pablo (ex Rondweg). Tur esaki a cuminsa alrededor di 10'or n'ey di mainta.

Den ex Rondweg no ta musta cu e caso tawata serio. Pero, si polis a wordo bisa cu habitantenan lo a mira un individuo sali di e adres, y despues e candela a cuminsa. Pero esaki lo no a haci mucho cos. Algun rato mas despues, den un caya pazuid di Caya Papa Juan Pablo, candela a cuminsa den Tamarijnstraat number 2 un cas bieu no habita. Pero treciendo un peliger pa e casnan rond.

Aki nan si Brandweer mester a drenta den accion, pa evita cu e candela expande. Brandweer a sa di domina e candela na e adres aki tambe. No ta exclui e posibilidad cu e candela aki lo a cuminsa door di e mesun individuo cu tawata den Caya Papa Juan Pablo II algun minuut prome.

Pues, si ta bon habitantenan di Dakota tira bista ariba un individuo cu lo por ta actua sospechoso y avisa polis.

Bin bishita nos y probecha!
Paña di bon calidad na bon prijs.

Parlamentario independiente, mr. dr. Ryçond Santos do Nascimento:

MEP y AVP ta contra supervision financiero pa nan por sigui fiesta

En conexion cu e tema supervision financiero y e presupuesto supletorio cual tratamiento a tuma luga e siman aki den un reunion publico, parlamentario independiente Ryçond Santos do Nascimento a considera oportuno pa comparti un resumen di e maneho financiero publico cu Aruba a conoce desde Status Aparte pa ilustra e motibo di pakico nos ta awe caminda nos ta.

Finansa desastroso desde 1986

T'asina cu desde 1986 Aruba nunca tabatin un ciclo presupuestario na ordo, cu a cumpli cu e leyman di control financiero. “Nunca a entrega presupuesto na tempo, ningun gobernacion a cumpli cu nos ley di contabilidad ora di ehecuta presupuesto, nunca a presenta presupuesto supletorio na ora y aña tra'i aña a stroba Algemene Rekenkamer di hiba un control debido y entrega bek na Parlamento na ora,” asina Santos do Nascimento a expresa.

E realidad di Aruba ta cu nunca tabatin un administracion financiero na ordo, loke ta obliga bo puntra kico Parlamento a haci tur tempo. “Ki dia Parlamento a manda un minister di finanzas cas pa motibo di mal maneho financiero? Ki dia a wak parlamento manda minister president of gabinete cas pa motibo di mal gobernacion financiero? Nunca,” el a añadi. E ta haya cu ta obvio e ora cu e parti democratico di Aruba simplemente no ta funcionando; e budgetrecht di e parlamento di Aruba simplemente no ta funcionando y esey ta pasobra desde 1986 puro ja knikkers sinta den Parlamento.

AVP cu MEP hunto ta tuma hende haci desde 1993

A recorda ademas cu Aruba a haya su Status Aparte pa bira independiente na 1996. Sinembargo, ni Henny Eman, ni Nel Oduber tabata kier independencia y a lobby cu Hulanda cu a bay di acuerdo pa scrap independencia for di Statuut, bao condicion cu administracion financiero ta e asunto cu lo keda papia di dje. Esey ta e protocol cu AVP y MEP hunto a firma cu Hulanda na 1993.

Mas aleu, ta Nel Oduber mes a manda carta pa gobernador pidiendo Reino pa interveni contra e gobierno di e tempo ey y ta e MEP di Evelyn Wever-Croes a produci e documento Feestvierend ten Ondergaan pa pidi Hulanda interveni. Den un carta nan ta bisa explicitamente cu e intervencion di Hulanda na 2015 tabata na su luga y necesario pa Aruba. Sinembargo, awo kier hiba otro tono. AVP y MEP ta brasa otro bek contra supervision. Dicon? Pasobra nan kier pa e

fiesta sigui.

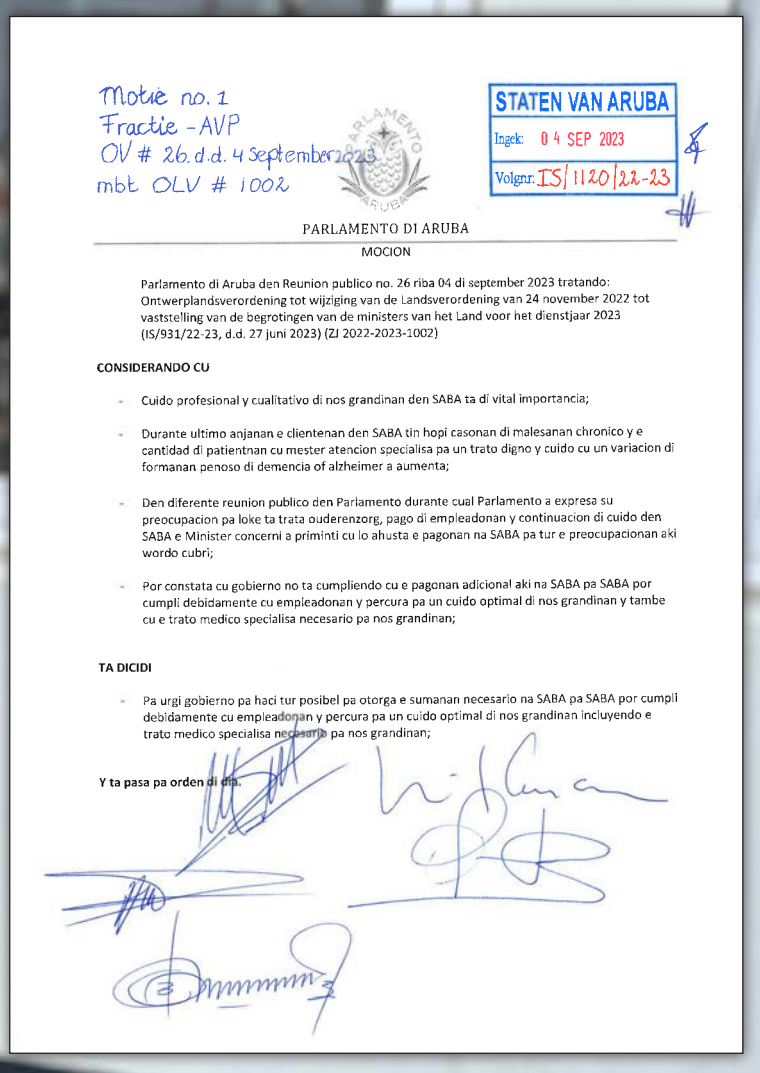

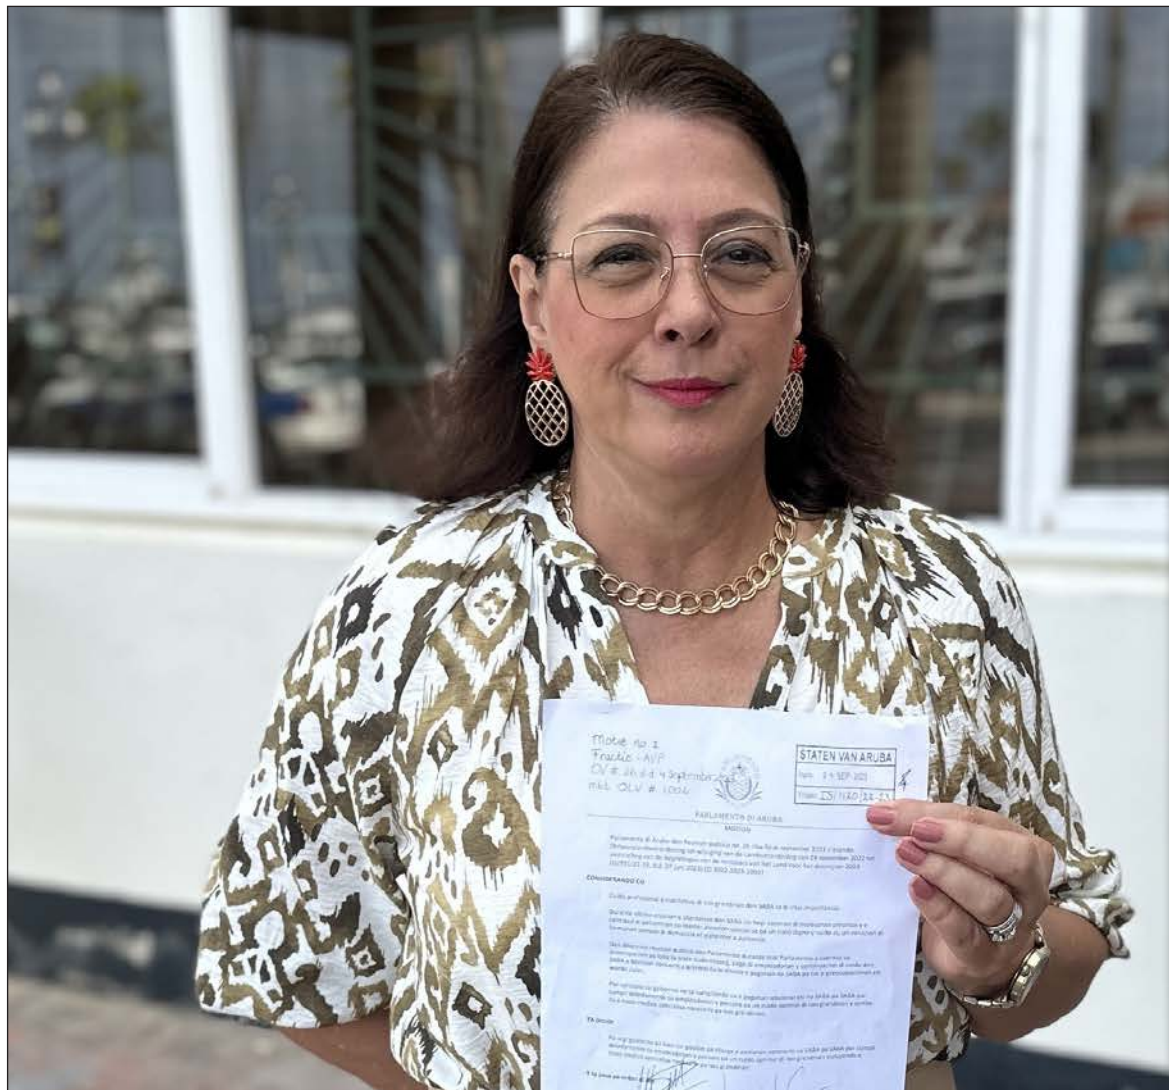

Santos do Nascimento: “Pero si nos kier tin un pais pa nos yiunan y pa nos nietonan, un pais cu ta duna oportunidad di berdad, no e sistema di enseñansa actual y di trabou cu ta un desaster, y un pais caminda e ciudadano y comerciante por tin perspectiva diferente, nos mester actua diferente.” P'esey ta importante cu nos tin supervision financiero. MEP y AVP mes den pasado hopi biaha a manda carta pa Hulanda confirmando cu nan ta haya supervision importante.

Futuro di nos yiunan y nietonan ta rekeri bon administracion

Por ultimo, e parlamentario independiente ta desea pa pueblo no lubida cu ta e locura di e dos partidonan aki a crea un debe di 6 biyon florin cu ta nos debe nacional. Anto bo tin un gobierno cu ta ranca hopi placa di e pueblo, mas o menos 1 biyon florin pa aña via impuesto y invoerrechten, pero cu no kier tin su administracion financiero na ordo. Si nos kier pa nos yiunan y nietonan tin un chens pa ta prospero, mester traha riba bon gobernacion cu urgencia. Sin bon gobernacion servicionan di gobierno lo sigui ta di un calidad inferior, enseñansa lo sigui ta un desaster y e ciudadano lo no tin ningun perspectiva pa transforma su salario di 2.500 florin den uno di 5 mil florin of mas.

Parlamentario drs. Mervin Wyatt-Ras:

Minister Arends a instrui coalicion pa vota contra mocion pro SABA

Esey ta loke e parlamentario di Partido di Pueblo Arubano (AVP) a indica cu a sosode e siman aki durante e reunion publico pa tratamiento di presupuesto supletorio 2023 y cu e ta considera importante pa pueblo ta na altura di dje.

Fuera di cu a obliga Parlamento di Aruba pa trata un presupuesto supletorio cu no ta basa riba realidad, manera cu Raad van Advies mes a indica y adverti, Gabinete Wever-Croesdi un forma fragante ta instrui esunnan cu lo mester ta representante di pueblo, con pa vota riba mocionnan.

Pa Wyatt-Ras no tin duda cu gobierno kier sconde solo cu un dede e situacion real di nos isla, esta cu door di tur medida a afecta e ciudadano mas humilde, mescos cu e comerciante chikito. “Ki bal bo tin progreso den entrada, pero pueblo no tin pan pa pone riba mesa, ta kita nan awa, nan coriente, no por paga pa gasolin pa hiba mucha scol, ni paga mas na gasto di scol, uniform cu a bira mas caro, etc.” e parlamentario a expresa na prensa.

Den un intento pa sali na defensa di e ciudadano comun y

especificamente di un grupo vulnerabel manera ta nos grandinan, AVP a presenta un mocion durante e reunion publico ya cu no por sigui wak con Minister Ursell Arends ta duna splicacion di e disputa cu ta hiba cu SABA riba e suma di subsidio. E caso sumario ta afectando mientrastanto e pago na trahadonan y henter e maneho di e entidad.

Wyatt-Ras: “P’esey AVP a presenta un mocion pa entrega suma necesario pa cumpli cu empleado, cu ta coriendo den atraso, ademas di loke ta necesario pa loke gobierno mes ta exigi di SABA, por ehempel un auditing di e bukinan cu ta costa 125 mil florin pa aña”, sin conta ainda e cuenta anual y loke esey ta costa. “E intencion di AVP ta pa garantisa cu e cuidu di nos grandi ta uno cualitativo,” e parlamentario a afirma.

Lamentablemente e minister mes a tuma rienda di e reunion, y manera custumber di e coalicion aki, a pidi parlamento pa no apoya e mocion. Peticion cu, manera tabata di spera, parlamentarionan di fraccion MEP y RAIZ a cumpli cabalmente.

Diferente na e gobierno di Eman:

Gabinete Wever-Croes ta entrega presupuesto supletorio 2023

Na tempo, sin deficit, y cu conseho positivo di Raad van Advies

Durante e tratamento di Presupuesto Supletorio den Parlamento Dialuna ultimo, Prome Minister Evelyn Wever-Croes a expresa cu e ta hopi orguyoso di tur colega minister. Sigur specialmente di Minister di Finansa Xiomara Maduro pa e disciplina cu e tin den su trabou. Esaki no solamente ta wordo demo-

mostra den e sala di Parlamento pero tambe den Conseho di Minister. *“Esaki ta un disciplina cu no ta facil pa cumpli cu ne pero tur minister di mi Gabinete ta cumpli cu ne cu e compromiso cu un solo meta, cu ta pa mehora e situacion financiero di pais Aruba”*, Prome Minister a enfatisa.

Ya caba na aña 2017, Gabinete Wever-Croes 1 a cuminsa cu e vision y disciplina aki. Esaki a logra tambe cu un surplus chikito na aña 2019. Pero, manera tur hende sa, na aña 2020, e pandemia a dal nos abou. Sinembargo, cu e mesun disciplina y determinacion aki, Gobierno di Aruba a sigui traha mesora pa awor Aruba ta den pleno recuperacion, no ainda unda nos mester ta, pero si nos ta riba e bon caminda.

Prome Minister a sigui expresa cu e ta mas orguyoso ainda pa e hecho cu e Presupuesto supletorio 2023 ta wordo trata di tempran. Den pasado, y sigur algun Parlamentario di e partidonan cu ta forma Gobierno actual y algun di partidonan di oposicion actual, tawata miembronan di Parlamento durante añanan 2009 pa 2017, 8 aña largo, na unda cu Parlamentarionan no tawata envolvi den decisionan di Gobierno. Durante e añanan aki tambe, Parlamento tawata ricibi e presupuestonan supletorio. Pasobra si un minister no haya un presupuesto supletorio pa cambia su presupuesto, e por wordo teni responsabel personalmente. Pero tin diferencianan grandi entre e gobierno di Eman y e Gobierno di Prome Minister Evelyn Wever-Croes. Prome Minister a menciona tres di nan.

Presupuestonan supletorio di e gobierno di Eman semper tawata wordo entrega laat y no tawata envolve Parlamento:

Presupuestonan Suplerio di e añanan anterior di e gobierno di otro asignatura, semper tawata wordo entrega laat na Parlamento y tawata wordo trata durante fin di aña y casi tawata habri aña den Parlamento. *“Ora cu e presupuesto supletorio wordo entrega laat, ya caba e gastonan a wordo haci y e gobierno di e tempo ey tawata bay Parlamento solamente pa cover nan mes y no pa busca aprobacion ni pa informa ni pa envolve Parlamento”*, Prome Minister a expresa.

Presupuestonan supletorio di e gobierno di Eman ta wordo entrega cu deficitnan adicional:

Mas tristo ainda, Prome Minister a enfatisa, ta cu no solamente e presupuesto supletorio tawata wordo entrega laat na Parlamento, pero e ta wordo entrega cu deficitnan adicional, yegando te na 50 milyon florin extra y e tempo ey, parlamentarionan di e gabinete di Mike Eman a aproba tur. *“Esaki tawata e practica di e gobierno di Eman e tempo ey hunto cu su parlamentarionan”*, Prome Minister a remarca.

E Gobierno di Gabinete Wever-Croes, despues di hopi aña, a entrega surplus den presupuestonan y awo ta entrega esaki bugdet neutral, dus lo no haci e surplus menos. Esaki ta danki na e trabounan di Minister di Finansa y su ekipo financiero profesional cu tin e vision y determinacion pa hiba Aruba den progreso.

Presupuestonan supletorio di e gobierno di Eman no tawata tin conseho positivo di Raad van Advies:

E di tres motibo pa compara Gabinete Wever-Croes y Gabinete Eman ta e consehonan di Raad van Advies di e tempo ey cu tawata devastador pa e gobierno anterior y asina mes e parlamentarionan cu tawata sostene e gobierno di Mike Eman, tawata aproba e presupuesto sin lesa, studia y mas ainda, sin worry. Esaki tawata e practica cu a hinca Aruba den un problema financiero hopi serio pasobra e mayoria den Parlamento, esnan cu tawawta sostene e gobierno di Mike Eman, a permiti nan gobierno abusa di nos pueblo.

Si e tempo ey, nos tawata tin parlamentarionan serio, ora e pandemia a dal nos pais na aña 2020, nos lo tawata miho para y lo e no tawata asina devastador pa nos. No solamente e gobierno di Eman a hinca nos den problema financiero pero a causa un desconfiansa di Hulanda pa Aruba. Aruba bou di e asignatura berde, a conoce mal maneho na unda cu a crea deficitnan sin preocupacion algun pa nos pueblo, y no a haci caso di e consehonan di Raad van Advies.

Awo, na mita di aña 2023, Aruba no tin un deficit y tur conseho ta positivo. Esaki sigur ta un diferencia grandi di e tempo di gobernacion di Mike Eman y cu esun di Prome Minister Evelyn Wever-Croes.

“Aruba ta den recuperacion. Nos economia ta crece. Nos turismo ta crece. Desempleo a baha. Inflacion ta bahando. Esaki si di berdad ta progreso y bienestar pa nos pueblo. Ainda nos no ta unda nos mester ta, pero nos ta riba e bon caminda”, Prome Minister Evelyn Wever-Croes a enfatisa.

Parlamentario mr. drs. Mervin Wyatt-Ras (AVP)

Gabinete Wever-Croes II kier sigui studia mientras nos grandinan ta sufri

Parlamentario di fraccion di Partido di Pueblo Arubano AVP y un profesional cu ta bin di sector di trabou social, esta mr. drs. Mervin Wyatt-Ras ta kere cu Gabinete Wever-Croes II a haya mas cu suficiente oportunidad pa atende cu e situacion di personal di SABA, cual ta e institucion cu ta brinda cuido na nos grandinan.

Fuera di a tuma tur tempo pa laga haci estudio, e ministerialmente no kier a comparti cu Parlamento e rapportnan correspondiente. Sinembargo fraccion AVP a pone presion y a logra haya nan caminda por mira cu e conclusion ta cu mester paga e empleadonan. E ta un proceso cu a bira ora pa yega na cumplimiento.

No ta aceptabel, segun Wyatt-Ras pa e mandatarionan sigui sconde y bira tras di informacion y argumento cu awo kier

bin cu otro maneho pasobra e ta un cartera riba su mes. E sector ta existi pa hopi tempo caba y AVP a regula esaki na 2017 pa medio di un departamento loke a habri posibilidad di haci mas. Asina mes, Gabinete Wever-Croes II ta scoge pa ataca un entidad cu pa añanan largo a duna e servicio optimal di un refugio pa nos grandinan.

Wyatt-Ras: “Ta manera ta un guerra tin cu nan. Ta un situacion cu na luga di bay dilanti, ta bay atras. Kier pasa tur tempo di mundo ta haci estudio. E gobierno aki kier studia, studia y studia en bes di ehecuta y traha efectivo pa nos comunidad.”

E parlamentario ta para firme cu nos grandinan merece miho di e gobierno aki. MEP a priminti shelo y tera; te hasta cu lo baha edad di pension. Den shete aña no a cumpli y awo tra'i otro ta haya medida riba nos hendenan mas vulnerabel y cu no por mas.

“No tin curason pa e ciudadano. P'esey AVP como oposicion ta sali na vanguardia di nan derecho,” asina Wyatt-Ras a declara e siman aki demostrando cu no ta drumi riba ningun di e problemanan cu nos pais ta confronta.

Eric Ras(Curpa):

Parce cu campaña ta na porta pasobra gañamento ta atrobe na ordo di dia

Increibel con e minister cu ta encarga cu Serlimar kier hustifica su maneho riba desperdicio. Bisa mi ken den 2023 ta bay paga awg.1050,= pa un baki di sushi di 15 yarda. Ta sigur cu mayoria habitante na Aruba lo tin un miho destino pa e placa ey. Pueblo den su mayoria ta den un lucha pa wanta cabes riba awa.

A haya placa pa exporta e desperdicio di Aruba pero burocracia ta prefera di spaar sushedad. Gobierno pa hustifica su maneho ta papia disparate pa no bisa gañamento. Cu e 1.5 biyon florin cu a drenta den caha gobierno lo por a paga e debe di 916 miyon cu debe Hulanda pa e prestamo, por a pone 60 miyon florin pa drecha e Rioolwaterzuiveringsinstallatie, hisa pensioen di nos adultonan mayor, hisa onderstand y yuda e scolnan pa no a hisa schoolgeld. Aruba ta sushi y ta hole stinki pa via di e planta na Bubaliplas cu ta den un mal estado.

Tristo ta ora cu nos tin un gobierno cu no ta interesa den bienestar di su pueblo, no ta interesa den salud di nos grandinan y esnan menos fortuna of miho bisa esnan cu mas mester di un gobierno pa rek un man brinda yudansa. E minister cu ta encarga cu nos grandi ta bon na altura di e situacion di SABA pero ta prefera di organisa un foro nacional y tristo pa mira cu esnan cu tin conocimiento di e problema mes ta afo.

Esaki nos ta yama bruhado di tera. Pueblo a perde tur confiansa den e gobierno cu no ta papia berdad. Un Parlamentario ta pidi pueblo pa baha e app pa asina busca supermercado mas barata pa haci compras mientras cu e prijs di gasolin ta esun mas halto den

Caribe Hulandes. E unico solucion di nos gobierno ta medida.

Un otro minister mas cu ta biba den fantasia ta e minister di Labor, Energia & Integracion. E minister ta bin delanta papia cu desempleo a baha. for di unda e ta saca e cifra no ta conoci paso den e tempo aki tin mas hende cu ta perde trabao. Otro ta haya pakete y gobierno no ta tene cuenta cuanto tempo falta pa e persona yega su edad di pensioen y ta klap nan cu 25% na belasting. Kisas e ponencia di gobierno lo ta pa asina legalisa ilegalnan. Kisas e minister ta busca pa gana voto Latino manera a pasa den tempo di covid ora el a declara si bo kier pa fase sigui anto lo bo mester vota mep. Un gobierno sin boluntad p'esey mes no tin solucion pa nada. E minister a biaha rond mundo gasta placa di pueblo y no por baha e prijs di awa y electricidad. Un bos cu

ta grita den desierto pero sin solucion.

Nos ta den luna dificil y laga nos mira cuanto cos mas lo bay pasa den e dianan nos dilanti. E agenda cu gobierno mester sigui ta un otro lockdown y pusha pueblo cu un otro vacuna cu ta mata y asina logra reduci e cantidad di poblacion mundial. E otro plan ta pa pusha e moneda digital pa kita libertad di nos pueblo y pa tin mas control. Pueblo di Aruba e ora zero a yega. Laga nos tene duro paso awor ta bin e sorpresanan. Awor nos ta bay haya sa kico ta e 'great reset' cu nos gobierno a hinca nos pueblo aden.

Dios lo expone tur maldad na luz di dia. Un caminda nos tin y unico speransa ta den Dios. Pa para corrupcion y pa Aruba por progresa mester keda fiha nos fe den nos bon Dios. Partido CURPA e unico alternativa.

Maneho nobo di permiso pa habri negoshi

Ami por participa?

Na october 2022, Minister Geoffrey Wever a introduci e maneho nobo pa permiso di negoshi, e asina yama 'Vestigingsbeleid 2022'. E meta di e maneho modernisa aki ta pa elimina "red-tape", stimula mas negoshi pa habri na Aruba y asina crece Aruba su economia y reduci obstaculo pa inversion, pensando riba e spin-off economico y e cuponan di trabou nobo, como tambe e aumento di entrada pa caha di gobierno.

A haci diferente cambio na e maneho pa permiso di negoshi pa haci esaki mas eficiente y efectivo.

1. Digitalisa e servicio: por aplica online, upload documento, track proceso, ricibi notificacion y download e permiso.

2. Reduci obstaculo: A amplia e categoria di localnan door di haci posibel cu mas hende no-naci na Aruba por habri un negoshi sin cu mester pidi un permiso pa director, y a reduci tambe e periodo di residencia cu e persona naci na USA y Union Europeo mester tin pa ricibi un permiso di director.

3. Servicio: A mehora e servicio y simplifica e proceso door di rekeri menos documento; DEZHI ta consulta informacion digital cerca Censo y KvK pa facilita e cliente.

4. Menos restriccion: Ta stimula inversion den centro di Oranjestad y San Nicolas, stimula diversificacion di Aruba su economia a traves di e "six promising sectors", plus duna companianan chikito, cu ta cumpli cu e criterio, e posibilidad pa establece den nan propio cas (zona residencial)

"A logra hopi mehoracion, pero nos tin cu sigui innova pa asina tin e sistema mas efectivo posibel, y mas eficiente pa e

usuario." E intencion originalmente tabata pa procesa petition di permiso den menos di 2 siman. "Aunke a logra hopi mehoracion, ainda tin espacio pa mas, pero ta dependiente di diferente factor," segun Minister Wever.

E Vestigingsbeleid 2022 ta casi 1 aña den implementacion y feedback ta parti importante den monitor e implementacion. Pa cu esaki e Afdeling Vestiging di DEZHI di Ministerio di Asuntonan Economico, a prepara un encuesta di satisfaccion di e cliente tocante e maneho di permiso pa habri negoshi.

E periodo pa participa na e encuesta ta di 1 september – 15 september 2023. Si bo a habri bo negoshi den e ultimo aña, nos ta encurasha bo pa participa via e siguiente link: <https://bit.ly/BusinessLicensing2023>

Minister Geoffrey Wever "ta pidi un y tur colabora cu e encuesta door di duna bo opinion pa asina nos por sigui mehora nos servicio. Bo opinion ta importante!"

Den conexion cu e cifra di desempleo hubenil

Aruba ta ofrece varios opcion di enseñansa, pa engrandece oportunidad laboral pa nos hobennan

Durante conferencia di prensa di Gobierno, Minister di Labor Glenbert Croes a elabora riba a e cifra di desempleo hubenil. Un estudio y sondeo cu a wor- do ehecuta pa Departamento di Labor y Investigacion (DAO), CBS – Centraal Bureau Statistiek y Banco Central di Aruba.

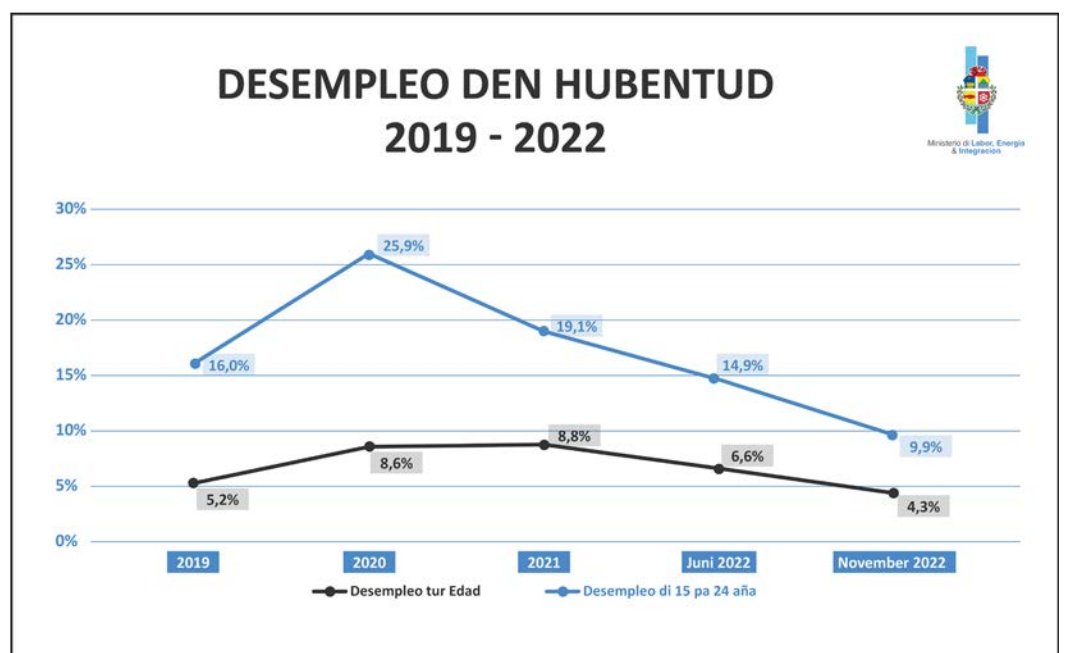

Minister Croes a indica cu si compara e porcentahe di desempleo hubenil actual cu locual e tabata na 2020, por bisa cu e rebaho ta uno remarcabel y substancial. Na 2020, debi na e pandemia, e cifra di desempleo hubenil a subi drasticamente, na un porcentahe maximo di 25.9%. Actualmente, esaki a baha te na 9.9%, cu apesar di ta un bahada drastico, ainda ta representa un total di 411 hoben sin trabou.

Minister Croes a expresa di ta orguyoso di e hobennan cu a probecha e oportunidad di tuma nan futuro den nan man y busca un empleo, pero ta preocupa ainda pa e cantidad cu ainda no tin trabou y cu no ta bayendo scol tampoco. E categoria di hobennan aki, di 15 pa 24 aña di edad, ta hustamente esunnnan cu mester wordo guia bek den rumbo di enseñansa, (re) capacitacion, pa por eventualmente haya un trabou den e sector turistico, cu ta e pilar economico mas grandi di Aruba y cu ta brinda hopi oportunidad di trabou.

“Mi kier extende un invitacion na tur e hobennan cu ta den necesidad di un trabou, pa pasa Enseñansa pa Empleo pa asina tuma parti den loke ta e cursonan cu tin disponibel. Tin cursonan di waiter y bartending, cu lo yuda cada un di bosu pa drenta mas facilmente e mercado laboral. Aruba tin hopi oportunidad, ta keda na cada hoben pa tuma bentaha di esaki y segura un miho futuro” Minister Croes a expresa.

Si bo ta buscando trabou y no por haya, e mandatario ta invita bo pa pasa registra na DPL kendenan lo intermedia cu sector priva pa un oportunidad pa trabou.

“Nos ta riba e bon caminda pero nos esfuersonan mester continua pa pone tur nos yiunan di Tera na trabao y forha pa nan un futuro briyante cu henter Aruba tin derecho riba dje”, e mandatario a clausura.

Fortaleza pa Famia

Nos fe, obediencia y dependencia na Dios mester ta firme tur momento

TA cumbini nos pa tur momento consulta Dios, prome cu nos haci algo y no depende riba nos propio forza, nos mester reconoce Dios, den tur locual nos ta haci pa asina Dios guia nos pasonan y tur cos lo bay nos bon. Ora nos ta pidi Dios algo, nos mester pidi cu Fe pasobra sin Fe ta imposibel agrada Dios.

Den bida nos mester di sabiduria puro, cual ta habri porta pa nos y esey ta bini solamente di Dios.

Ma si cualkier di boso falta sabiduria lage pidi Dios, kende ta duna na tur hende generosamente, y sin reproche, y esaki lo wordo duna na dje. Ma lage pidi den fe sin ningun duda, pasobra esun cu ta duda ta manera ola di laman, cu ta wordo lastra y tira door di biento.

Pasobra no laga un hende ey spera cu e lo ricibi algo di Señor, siendo un hende di curason dobel, inconstante den tur su camindanan (Santiago 1:5-8).

Ta bon pa nos tuma e bon ehempel di esnan cu a mantene nan fe, depende y obedece Dios.

Noe a mantene su fe y a obedece Dios y a traha e Arca y asina e cu su famia y tur animal cu Dios a bise a scapa for di diluvio (Genesis 7:1-5).

Abraham a mantene su fe y depende di Dios y Dios a dune un yiu cu nobenta y nueve aña, edad den cual awendia hende no ta papia di yiu mas, despues di morto di Sara ta para skirbi den(Genesis 25) cu Abraham a tuma otro esposa cu yama Ketura y tabatin seis yiu mas.

David a obedece y depende completamente riba Dios, y a derota e gigante Goliath, locual Saul cu henter su ehercito no por a haci (1 Samuel 17:45-50).

Ana a depende y pone su fe den Dios, y Señor a habri su matriz y dune un yiu cu yama Samuel(1 Samuel 1:20).

Daniel a pone su fe, obedece y depende di Dios, y a wordo tira den cueba di leon, y Dios a manda un angel pa cera boca di e leonnan (Daniel 6:21-22).

Maria a pone su fe y a obedece y depende riba Dios, y asina nos Salvador Hesus a bini na mundo. Maria a bisa: Ata e sirbido di Señor: Laga sosode cu mi segun bo palabra (Lucas 1:38).

P'esey den Lucas 1:46-56 Maria ta ofrece un cantica di Alabansa y Gradicimento na Señor.

Hairo a pone su fe y a obedece Hesus, y maske su hendenan di cas a bin bise, cu su yiu a muri, e a kere den Hesus, y asina su yiu a wordo sana (Marco 5:40-42).

Pedro a pone su fe y dependencia riba Hesus y a bisa Hesus :Señor si ta Abo ordena mi bini cerca bo riba awa, y Hesus a bisa: Bin. Y Pedro a sali for di e boto y cana riba awa bay cerca Hesus (Mateo 14:28-29).

Pedro y Juan a pone nan fe y depende totalmente riba Dios a bisa e homber paralitico for di den barica di su mama, Plata y Oro mi no tin, ma loke mi tin mi ta duna bo : Den e nomber di Hesus Cristo di Nazaret, cana. Y e a coy e na su man drechi y lante y mesora su pianan y su enkelnan a haya forza.

Ta tempo pa nos tur reconoce cu den e nomber di Cristo Hesus tin poder, y cu nos tur mester entrega nos bida na Cristo Hesus pa asina nos ta salba, y alcanza bida eterna (Juan 3:16-18).

Sinceramente, Pastor Marcel Balootje

Minister Ursell Arends ta anuncia e establecimiento di ‘Stuurgroep’ GAP

Ministerio di Naturalesa ta anuncia un desaroyo crucial pa Aruba su futuro den sector primario. Dia 1 di september 2023 a establece e Stuurgroep Good Agriculture Practices (GAP), bon practicanan di Agricultura.

E motibo principal pa establece e ‘Stuurgroep’ ta pa desaroya un programa robusto di certificacion GAP cu ta contribui na produccion y consumo di cuminda mas sigur y di calidad halto. Esaki ta crea oportunidad significativo tambe pa exportacion den exterior door di agricultornan local.

E ‘Stuurgroep’ tin como tarea e desaroyo di e programa di GAP, plan di implementacion y presenta accionnan concreto pa cumpli cu tur reglanan tecnico y operacional (internacional) relaciona cu practicanan di agricultura na Aruba.

E programa lo enfoca riba diferente aspectonan manera comprendemento di riesgonan di contaminacion, seleccion di tera pa proteccion di consumidor y medio ambiente, normanan di certificacion di GAP pa agricultura y cria di bestianan, cadena di suministro di cuminda (almacen, transporte, etc.), ley y reglanan, higiena, control y inspeccion, y tur otro aspectonan relevante na GAP.

E ‘Stuurgroep’, su miembro nan ta interdepartamental y interministerial consistiendo di Directie Landbouw, Veeteelt en Visserij (voorzitter), Directie Natuur en Milieu, Directie Volksgezondheid, Directie Economische Zaken, y representante di Ministerio di Asuntonan Economico y tin un mandato pa e proximo tres luna.

E ‘Stuurgroep’ por busca sosten pa nan tarea for di otro departamento di gobierno y institutonan cu por contribui di algun manera na nan trabou. Tambe nan por ricibi asistencia for di un of mas expertonan independiente y imparcial den nan trabou.

Dentro di tres luna e ‘Stuurgroep’ tin e responsabilidad pa presenta na e Minister di Transporte, Integridad, Naturalesa y Asuntonan di Adulto Mayor nan resultadonan, consejo, plan y accionnan concreto.

Minister Arends ta contento di e esfuersonan diligente pa e programa di GAP cu ta habri portanan pa Aruba su agricultornan por prospera tanto local como internacional.

MINISTER GLENBERT CROES EXTENDS HIS “ULTIMATUM” TO WEB AND ELMAR

ON MONDAY, Minister Glenbert Croes reaffirmed his even stronger stance against the state-owned companies NV Elmar and WEB Aruba NV, building on actions he took back in March of this year. The minister seeks solutions to address the ongoing power outage problems affecting several neighborhoods for the past few weeks. The current situation is deemed “unacceptable” by the Wever Croes II government, as it has caused significant inconvenience to the people, particularly during a period of scorching heat on the island.

On Monday, Minister Glenbert Croes set a 30-day deadline for WEB and Elmar to submit an action plan demonstrating how they intend to resolve these power outage issues that have plagued the island. The energy crisis has persisted for over a month, with intermittent blackouts occurring in various areas for various reasons.

It's worth noting that this isn't the first ultimatum issued by Minister Croes to these state-owned companies. Just five months ago, he issued a two-day ultimatum, demanding a proposal to lower the water and electricity tariff increase that had been implemented earlier in the year. However, despite the ultimatum, the price hike remained in effect, prompting further action from the minister.

This week's ultimatum seeks a comprehensive action plan from the companies to address the recurring power outages, which they claim to be working on already, including the repair of damaged cables during construction work in Oranjestad.

As the 30-day period unfolds, it remains to be seen whether WEB and Elmar will effectively address these issues before the deadline, thus potentially avoiding the need for further ultimatums.

Venezuela to Connect with Aruba via Conviasa

IN an exciting development for travelers and the aviation industry, Venezuela is set to establish a new connection with the island of Aruba through its flagship airline, Conviasa. While the precise launch date remains unspecified, Conviasa has indicated that the commencement of operations is imminent, hinting at an exciting new chapter in regional travel.

This announcement comes on the heels of another significant development in the region: the introduction of flights to Curacao by the airline Laser. These connections are opening up Dutch territories to greater accessibility from Venezuela, strengthening ties and opportunities for travel and trade.

Conviasa has further detailed its plans to initiate formal operations to the Juan Vicente Gómez Airport in San Antonio del Táchira on September 15th of this month. The airline had already conducted a successful test flight on August 23rd using an ATR42-420 aircraft. This expansion marks a milestone for the airport, which had, until now, exclusively served Estelar Airlines, with their flights set to begin on October 2nd, alongside Conviasa.

The month of September is indeed shaping up as a pivotal one for the aviation sector in the region. Iberia, the Spanish carrier, is increasing its weekly flights from three to five to Caracas, offering more travel options for those wishing to visit Venezuela.

Rutaca Airlines has inaugurated its flight route from Tocumen International Airport in Panama City to Venezuela. This route includes departures from Puerto Ordaz, a layover in Caracas, and a final destination of Panama. Rutaca offers two weekly flights, on Wednesdays and Sundays, utilizing Boeing 737-300 aircraft with a capacity of 160 passengers.

Copa Airlines is also bolstering its presence in Venezuela, increasing its weekly flights from 21 to 24, serving the cities of Caracas, Valencia, Maracaibo, and Barcelona. This expansion reflects the airline industry's commitment to supporting and facilitating tourism in the region.

These developments signal a renewed momentum in the aviation sector, which plays a pivotal role in connecting nations, fostering economic growth, and promoting tourism. The enhanced connectivity between Venezuela and its regional neighbors is a promising sign of the continued recovery and growth of the travel industry, offering new opportunities for travelers and businesses alike.

As the world gradually emerges from the challenges posed by the global pandemic, the expansion of flight routes and frequencies is a testament to the resilience and adaptability of the aviation sector. These developments not only facilitate travel but also contribute to strengthening ties between nations and promoting economic development in the region.

Discovering Aruba on a Budget:

10 Savvy Tips for Affordable Adventures

ARUBA, with its pristine beaches, vibrant culture, and stunning landscapes, is a dream destination for many travelers. While it's often seen as a luxury getaway, exploring this Caribbean gem on a tight budget is entirely feasible with some strategic planning and a dash of creativity. Here are 10 savvy tips to help you stretch your budget and have an affordable adventure in Aruba.

1. Embrace Off-Peak Travel:

Aruba's off-peak season, which typically runs from April to August, offers budget-conscious travelers a fantastic opportunity. During this time, you'll find lower prices on accommodations and flights, making it easier to plan an affordable trip.

2. Choose Wallet-Friendly Lodging:

Consider alternative accommodations like hostels, guest-houses, or vacation rentals instead of high-end resorts. Opt for places with kitchen facilities, allowing you to prepare your meals and save on dining expenses.

3. Dine Smart:

While dining out in Aruba can be costly, you can save money by buying groceries from local markets and preparing your meals. To savor local flavors without breaking the bank, explore affordable eateries known as "snacks" where you can enjoy delicious, budget-friendly dishes.

4. Explore Nature for Free:

Aruba's natural beauty offers countless free activities. Spend your days hiking, swimming, and sunbathing on the island's breathtaking beaches. Don't forget to explore local neighborhoods, where you can soak up the culture without spending a dime.

5. Public Transportation:

Aruba boasts an efficient and affordable public bus system

that can take you to various parts of the island. Opt for a multi-ride pass to maximize savings compared to individual fares.

6. Leverage Discount Cards and Coupons:

Look for discount cards or tourist passes that provide reduced rates for attractions, tours, and dining options. These handy tools can lead to significant savings during your stay.

7. Be Selective with Tours and Attractions:

While some tourist activities are worth the expense, do your research and choose your tours and attractions wisely. Prioritize those that offer the best value for your money.

8. Travel Light:

Keep luggage costs to a minimum by packing only the essentials. Many budget airlines have weight restrictions, so traveling light can help you avoid extra fees.

9. Manage Currency Exchange:

When exchanging money, visit local banks instead of airport currency exchange counters for better rates. Additionally, use credit cards with no foreign transaction fees to prevent extra charges.

10. Stay Hydrated Economically:

Save on the cost of bottled water by bringing a reusable water bottle to refill throughout your trip. Aruba's tap water is safe to drink, making it an eco-friendly and budget-conscious choice.

With these savvy tips, you can experience the wonders of Aruba without straining your budget. Aruba's natural beauty and unique culture await you, and by making thoughtful choices and spending wisely, you can embark on an unforgettable adventure that doesn't break the bank. It's time to discover Aruba in all its budget-friendly splendor.

Cultivating Sustainability:

The Delicate Balance of Agriculture and Conservation in Aruba

NESTLED in the heart of the Caribbean, the island of Aruba, with its picturesque landscapes and azure waters, faces a unique challenge when it comes to agriculture. Sustainability concerns loom large, driven by a fragile ecosystem and the island's limited resources. In this oasis of natural beauty, the delicate balance between agricultural development and environmental conservation is a challenge that Aruba takes seriously.

The Fragile Ecosystem

Aruba's ecosystem is a testament to nature's resilience in the face of adversity. With a semi-arid climate, this Caribbean gem boasts cacti-studded landscapes, pristine beaches, and unique flora and fauna. However, this very fragility demands a careful approach to land use, especially in the context of agriculture.

Limited Resources and Water Scarcity

The island's limited arable land and scarce freshwater resources pose significant hurdles for agriculture. Traditional farming practices that rely on extensive water irrigation can strain these precious resources. In this context, sustainable agriculture practices become not just an option but a necessity.

The Challenge of Balancing Act

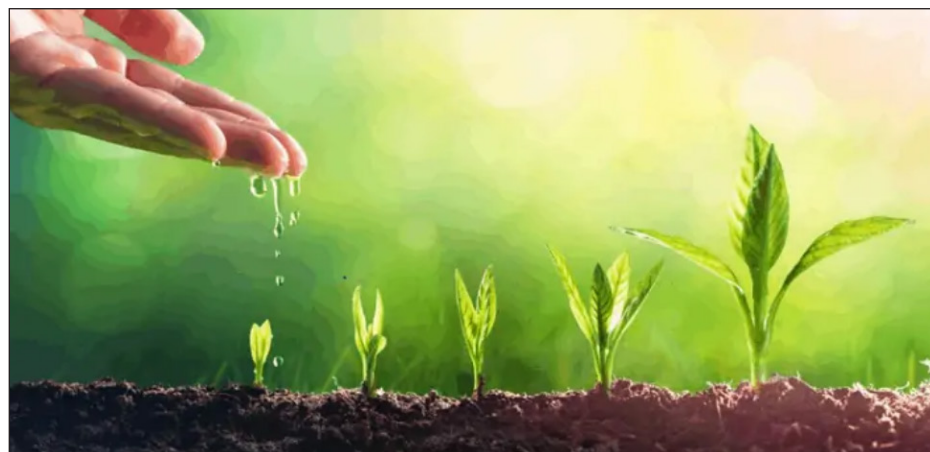

The heart of the matter lies in the art of balancing agricultural development with environmental conservation. Achieving this equilibrium is no small feat. Here are some key aspects to consider:

1. Water Management: Sustainable agriculture in Aruba begins with efficient water management. Drip irrigation, rainwater harvesting, and the use of brackish or desalinated water are strategies employed to minimize water wastage.

2. Soil Health: Soil erosion and degradation are concerns given Aruba's arid conditions. Crop rotation, cover cropping, and organic matter incorporation are vital for maintaining soil health.

3. Biodiversity Preservation: Agricultural expansion should not come at the cost of biodiversity. Preserving native flora and fauna is essential for maintaining the island's unique ecological balance.

4. Renewable Energy: Reducing the carbon footprint of agriculture is crucial. The integration of renewable energy sources, such as solar power, in farm operations is gaining

traction.

5. Local Food Initiatives: Encouraging local food production not only reduces dependence on imports but also strengthens food security and sustainability.

Government Initiatives and Community Engagement

Aruba's government has recognized the significance of sustainable agriculture and conservation. Policies promoting eco-friendly farming practices and land-use regulations aim to strike a harmonious chord between agricultural development and environmental protection.

Community engagement and education play vital roles. Local farmers are encouraged to adopt sustainable methods through workshops, subsidies for eco-friendly practices, and access to resources that promote responsible agriculture.

The Way Forward

In Aruba, sustainable agriculture isn't just about farming; it's about safeguarding the island's natural wonders for future generations. The delicate balance between agricultural development and environmental conservation is a testament to the island's commitment to preserving its unique ecosystem while striving for self-sufficiency.

As Aruba continues to navigate the challenges of sustainability, it serves as a beacon for other regions facing similar environmental constraints. The lessons learned here underscore the importance of adaptability, innovation, and a deep respect for nature as we endeavor to feed our communities while preserving the planet.

In this Caribbean paradise, cultivating sustainability isn't just a goal; it's a way of life—a testament to the enduring connection between the land and its people, where nature's beauty and agricultural progress can coexist in harmony.

Global Commitment to Sustainability:

The United Nations' Sustainable Development Goals (SDGs)

IN an increasingly interconnected world facing complex challenges, the United Nations introduced the Sustainable Development Goals (SDGs) in 2015, outlining a comprehensive plan for a sustainable and equitable future by the year 2030. These 17 global objectives have since become a cornerstone for addressing pressing issues ranging from poverty and inequality to climate change and environmental conservation.

A Blueprint for Global Progress

The SDGs represent an ambitious blueprint for international cooperation. Each goal tackles a specific area of concern, from ending poverty and hunger to promoting clean energy and gender equality. These goals are not isolated; they are interconnected, recognizing the interdependence of various global issues. Progress in one area often relies on progress in others.

The 17 Sustainable Development Goals

1. No Poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation, and Infrastructure
10. Reduced Inequality
11. Sustainable Cities and Communities
12. Responsible Consumption and Production
13. Climate Action
14. Life Below Water
15. Life on Land
16. Peace, Justice, and Strong Institutions
17. Partnerships for the Goals

Global Collaboration in Action

The SDGs have sparked a worldwide call to action. Governments, non-governmental organizations, businesses, and individuals have all joined forces to work toward these goals. They serve as a rallying point for initiatives, policies, and projects aimed at achieving a more sustainable and inclusive future.

Overcoming Challenges

While progress has been made in many areas, challenges persist. Insufficient funding, conflicts, and political hurdles can slow down the realization of the SDGs. Furthermore, the COVID-19 pandemic revealed the vulnerabilities in global systems, highlighting the urgency of addressing these issues.

Looking Ahead

As the world advances toward the 2030 deadline, the SDGs remain a beacon of hope. They guide efforts to build a more just, prosperous, and sustainable world. Governments and organizations continue to adapt and innovate, recognizing the importance of these goals in shaping a better future for all.

In conclusion, the Sustainable Development Goals are more than just objectives; they represent a global commitment to a brighter and more sustainable future. The progress made so far, along with continued dedication and collaboration, offers hope that these goals will not remain distant aspirations but become a reality by 2030.

Dear me of today

I hope this letter finds you well, wherever you are on your journey. I know that the present has been challenging, filled with obstacles, doubts, and moments when it seemed like the sun might never shine again. But I want you to know, with absolute certainty, that things do get better.

Remember those sleepless nights when you felt overwhelmed and lost? Those tears shed in frustration and exhaustion? They were not in vain. They were a testament to your resilience, your determination to keep moving forward even when the path seemed impossibly steep.

I want to assure you that the future holds so much more than you can imagine. The struggles you face today are shaping you into a stronger, wiser, and more compassionate person. Every setback, every heartache, and every challenge is molding you into the person you are meant to become.

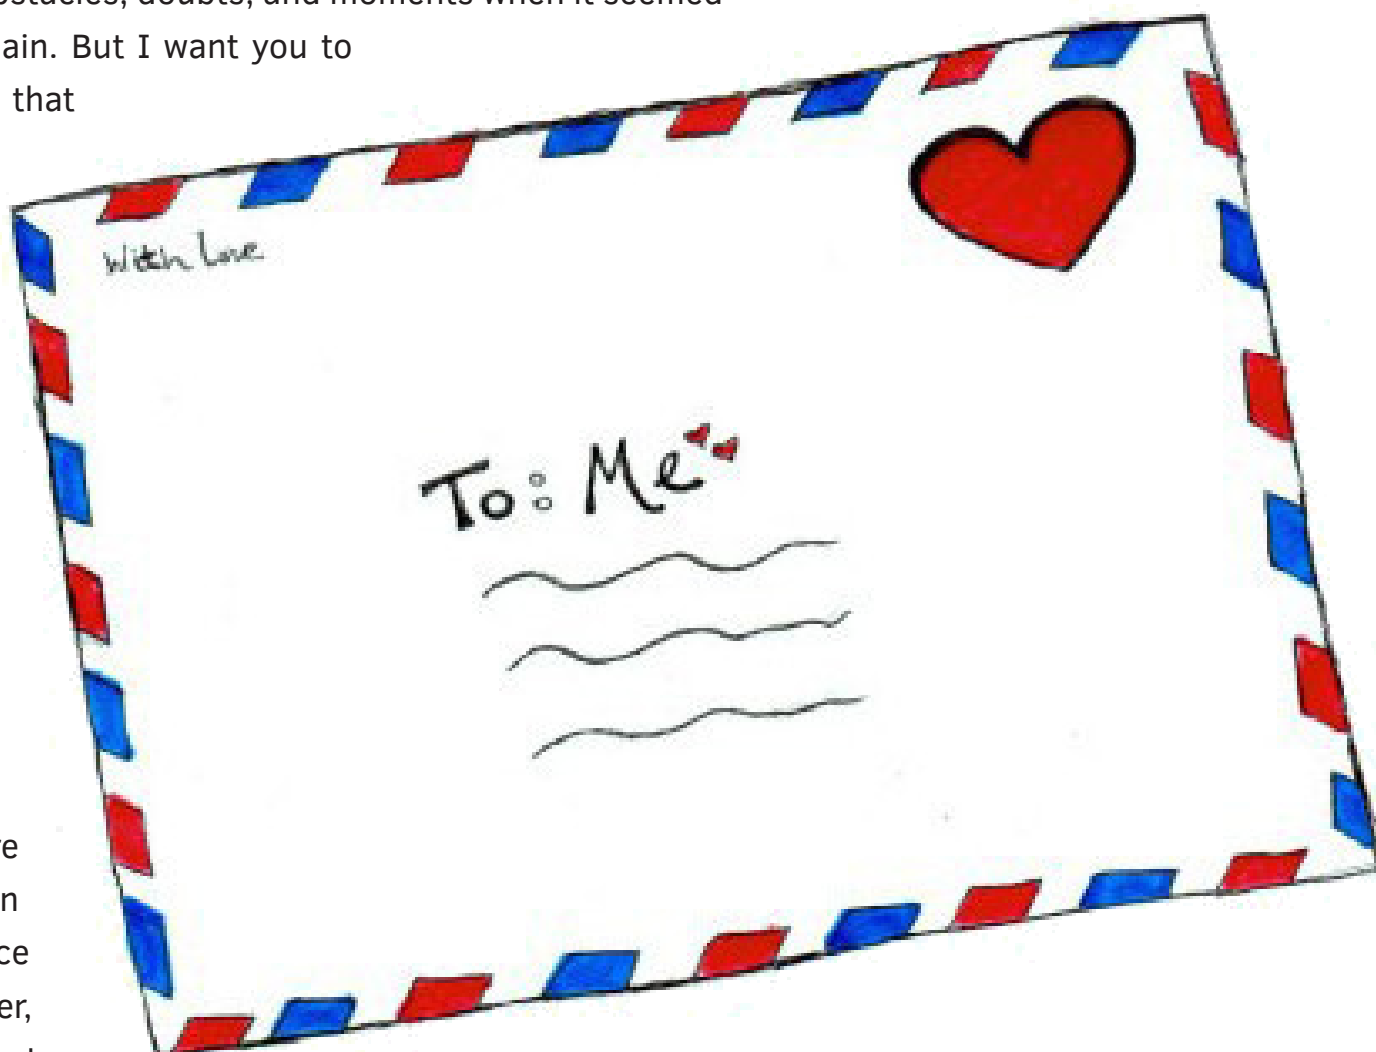

You will look back on these days with a sense of pride, not because they were easy, but because you endured. You will be amazed at the strength that was within you all along, waiting for the right moment to reveal itself.

I won't pretend that the road ahead is without its share of bumps and twists. Life has a way of throwing unexpected curveballs. But I can promise you this: you will continue to learn, to grow, and to find joy in the most unexpected places.

Hold on to your dreams and aspirations, for they will become your guiding stars. Keep nurturing your relationships, for they will be your source of comfort and strength. And never underestimate your own resilience, for it will carry you through the darkest of times.

As your future self, I want to thank you for your perseverance, your unwavering spirit, and your refusal to give up. You are on a journey of self-discovery and transformation, and the person you are becoming is truly remarkable.

So, my dear present self, have faith in the future. Embrace the challenges as opportunities. Cherish the moments of joy, no matter how fleeting they may seem. And always remember that, no matter how tough things may get, you have the power to overcome.

With love and unwavering belief,
Your Future Self

A Guide for Women:

Aging with Grace and Confidence

AGING is an inevitable part of life, and for women, it often comes with unique challenges and opportunities. However, in today's world, the concept of aging with class and grace has taken center stage. It's not about defying age but embracing it with confidence and poise. In this guide, we explore the art of aging with class, offering insights and tips for women to navigate this journey with elegance and self-assuredness.

Embrace Your Journey: The Beauty of Aging

The first step in aging with class is to embrace the natural progression of life. Understand that every line and wrinkle tells a story of your experiences and wisdom gained over the years. True beauty comes from self-acceptance and self-love.

Skincare: Nurturing Your Radiance

Maintaining healthy skin is key to aging gracefully. Develop a skincare routine tailored to your skin's unique needs, focusing on hydration, sun protection, and nourishment. High-quality skincare products can help preserve your skin's youthful glow.

Fashion and Style: Timeless Elegance

Your style evolves with age, but it can remain elegant and expressive. Invest in timeless pieces that make you feel confident and comfortable. Find a balance between trends and classic fashion to create a signature look that reflects your personality.

Haircare: Silver Locks and Lustrous Tresses

Many women embrace their natural hair color as they age, including beautiful silver or gray hair. Proper hair care is crucial to keep your locks healthy and vibrant. Consider stylish cuts and styles that suit your hair's texture and color.

Self-Care: Prioritize Your Well-being

Self-care becomes increasingly important as you age. Prioritize physical and mental health through regular exercise, a balanced diet, and mindfulness practices. Nurturing your well-being is the foundation of aging gracefully.

Confidence: The Secret to Timeless Beauty

Confidence is the ultimate accessory. Believe in your worth and value, and let your inner beauty shine through. Confidence is magnetic and makes any woman radiate elegance and grace.

Cultivate Relationships: Cherish Connections

Maintain and nurture meaningful relationships with family and friends. Social connections and emotional support are vital for a fulfilling life at any age.

Pursue Passions: Lifelong Learning

Keep your mind engaged by pursuing your passions and learning new things. Whether it's picking up a new hobby, traveling, or taking courses, staying curious and engaged keeps you youthful at heart.

In conclusion, aging with class is about celebrating the journey of life and embracing the changes it brings. It's a testament to the wisdom and experiences that come with age.

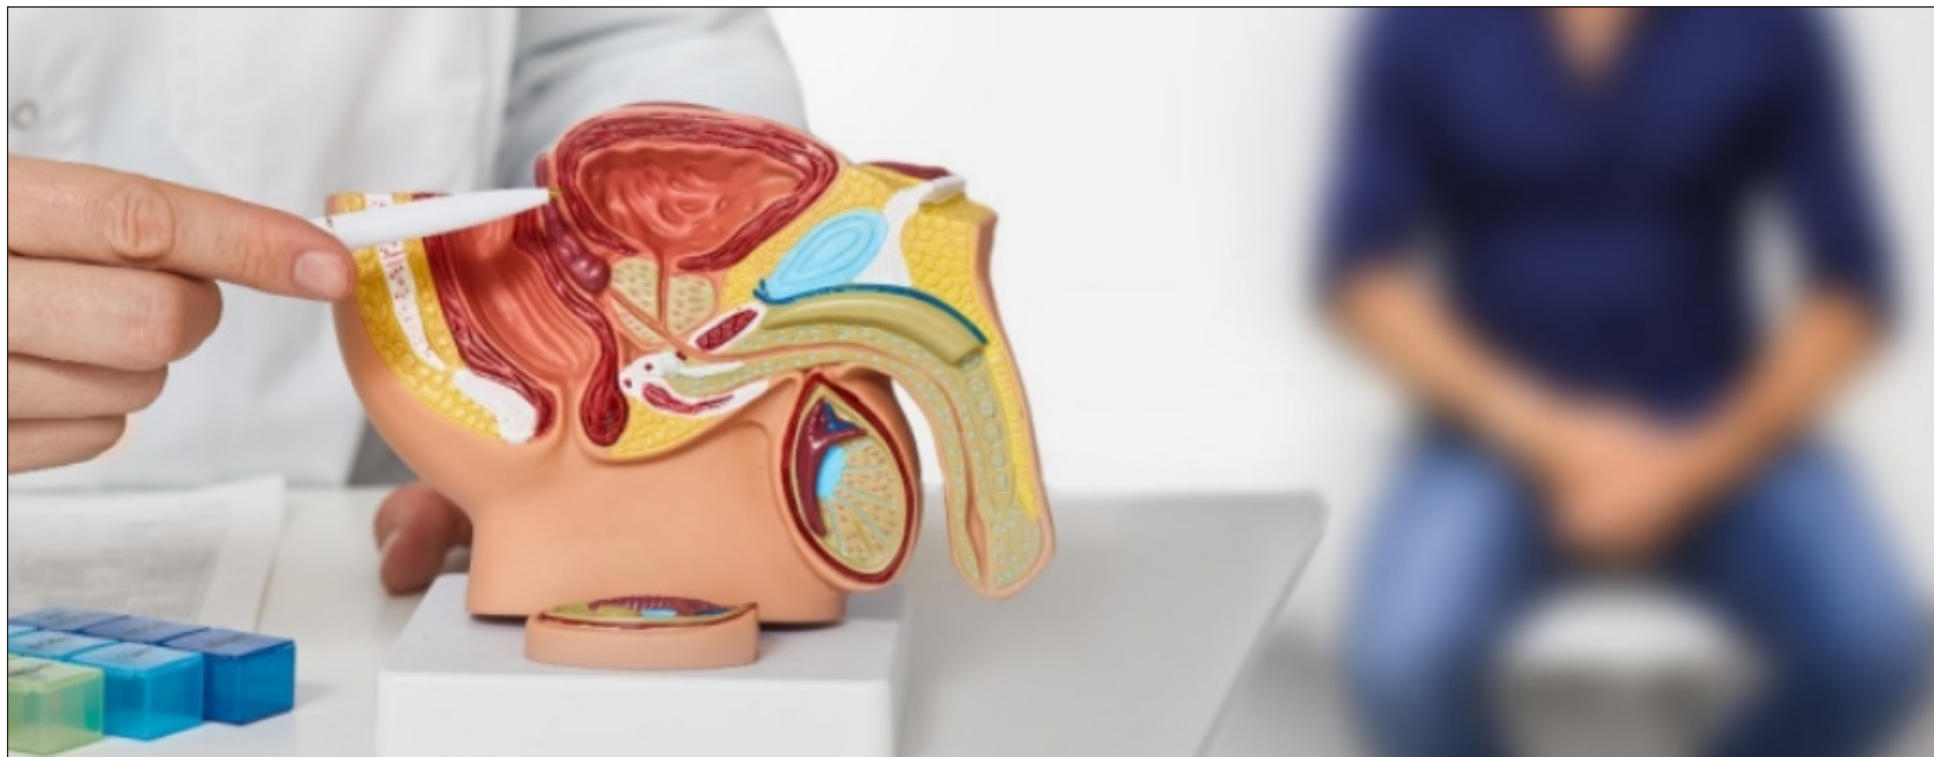

By taking care of your physical and mental well-being, nurturing your unique style, and exuding confidence, you can age with grace and leave a lasting impression that inspires others to do the same.

Age is just a number, but your attitude and self-assuredness are timeless. Embrace the journey and continue to shine in every stage of life.

A Comprehensive Guide for Men

Prioritizing Prostate Health

PROSTATE health is a subject of paramount importance for men across the globe. This small, walnut-sized gland, nestled just below the bladder and in front of the rectum, plays a pivotal role in the male reproductive system. However, it is also susceptible to various conditions that can significantly impact a man's overall well-being. In this comprehensive guide, we delve into the various facets of prostate health, including cancer, benign prostatic hyperplasia (BPH), prostatitis, and preventive measures.

Prostate Cancer: Vigilance Saves Lives

Prostate cancer remains one of the most prevalent cancers affecting men. Annual screenings, featuring a blood test known as the prostate-specific antigen (PSA) test and a digital rectal exam, offer a lifeline for early detection. Catching prostate cancer in its initial stages increases the likelihood of successful treatment and recovery.

BPH: Navigating Benign Enlargement

Benign Prostatic Hyperplasia (BPH), often an age-related condition, leads to an enlargement of the prostate. This, in turn, can cause urinary symptoms such as frequent urination, a weakened urine stream, and a sensation of incomplete emptying. Treatment options encompass lifestyle adjustments, medications, and surgical interventions.

Prostatitis: Managing Inflammation

Prostatitis, characterized by inflammation of the prostate gland, can stem from infections or other factors. Sufferers may experience pelvic discomfort, urinary difficulties, and, occasionally, fever. Prompt diagnosis and appropriate treatment, often including antibiotics and pain management, are

essential to mitigate symptoms.

Lifestyle Choices: Building a Healthier Prostate

The cornerstone of maintaining good prostate health lies in a well-rounded lifestyle. A diet replete with fruits, vegetables, and lean proteins is vital. Regular physical activity, abstaining from smoking, and limiting alcohol consumption contribute to overall well-being and reduce the risk of prostate issues.

Screenings and Early Detection: A Proactive Approach

Regular consultations with healthcare providers are indispensable for monitoring prostate health. Men should initiate conversations with their doctors about family history and risk factors, facilitating the creation of a tailored screening schedule.

Raising Awareness: Your Health, Your Responsibility

Awareness of the symptoms and signs of prostate-related conditions is the first step in prioritizing one's health. Any alterations in urinary habits, pelvic discomfort, or unexplained pain warrant prompt medical attention.

In conclusion, prostate health is a pivotal aspect of men's overall well-being. By being proactive, staying informed, and seeking regular medical check-ups, men can take significant steps towards safeguarding their prostate health.

Early detection and appropriate management remain the cornerstones in the battle against prostate-related health issues. Your health is your most valuable asset; it's time to prioritize it.

A Compassionate Guide: Empowering Mental Health Support

MENTAL health issues are a growing concern in today's society, affecting millions of individuals worldwide. Offering support to someone facing these challenges is not only an act of compassion but a critical contribution to their recovery. In this comprehensive guide, we explore the formal principles of assisting someone with mental health issues, emphasizing empathy, understanding, and constructive actions.

Understanding and Empathy: The Foundation of Support

To provide effective assistance to someone with mental health challenges, one must first strive to comprehend the nuances of their specific condition. Each mental health condition is unique, and understanding its symptoms, triggers, and treatment options is the initial step in offering meaningful support.

Empathy is the cornerstone of providing assistance. Create a judgment-free environment where individuals feel safe expressing their thoughts and emotions without fear of condemnation. Often, the simple act of listening with empathy can be profoundly therapeutic.

Emotional Support: Nurturing Well-Being

Expressing genuine concern and empathy is essential in demonstrating emotional support. Remind the individual that their feelings are valid, and assure them that you are there for them throughout their journey.

Encouraging Professional Intervention: A Crucial Step

While offering emotional support is invaluable, encouraging professional intervention is equally critical. Gently suggest that the individual seeks help from qualified mental health professionals, such as therapists or psychiatrists. Offer to assist in finding suitable resources or accompany them to appointments if needed.

Respecting Personal Boundaries: A Sign of Respect

Respect the individual's boundaries. Understand that there may be moments when they require solitude or distance. Avoid pressuring them to talk or seek assistance prematurely, as this can be counterproductive.

Sustaining Connection: Battling Isolation

Consistently stay connected with the individual. Isolation can exacerbate mental health challenges, making regular check-ins essential. A simple phone call or message to express care can make a significant difference.

Practical Assistance: Easing Daily Life

Offer practical help in daily tasks if the individual is experiencing difficulty. This may include assisting with meal preparation, household chores, or running errands.

Avoid Assumptions: Every Journey Is Unique

Avoid making assumptions about the individual's needs or what might be helpful. Mental health issues are intricate, and each person's experience is unique. Ask them what kind of support they find most beneficial.

Promote Self-Care: Encourage Healthy Habits

Promote self-care activities such as physical exercise, mindfulness, or engaging in hobbies they enjoy. These activities can positively impact mental well-being.

Patience: A Virtue in Mental Health Support

Remember that recovery from mental health issues is often a gradual process. Exercise patience and understanding, even if progress appears slow.

Seeking Support for Yourself: Acknowledge Your Limits

Supporting someone with mental health issues can be emotionally demanding. Do not hesitate to seek your support through friends, support groups, or counseling.

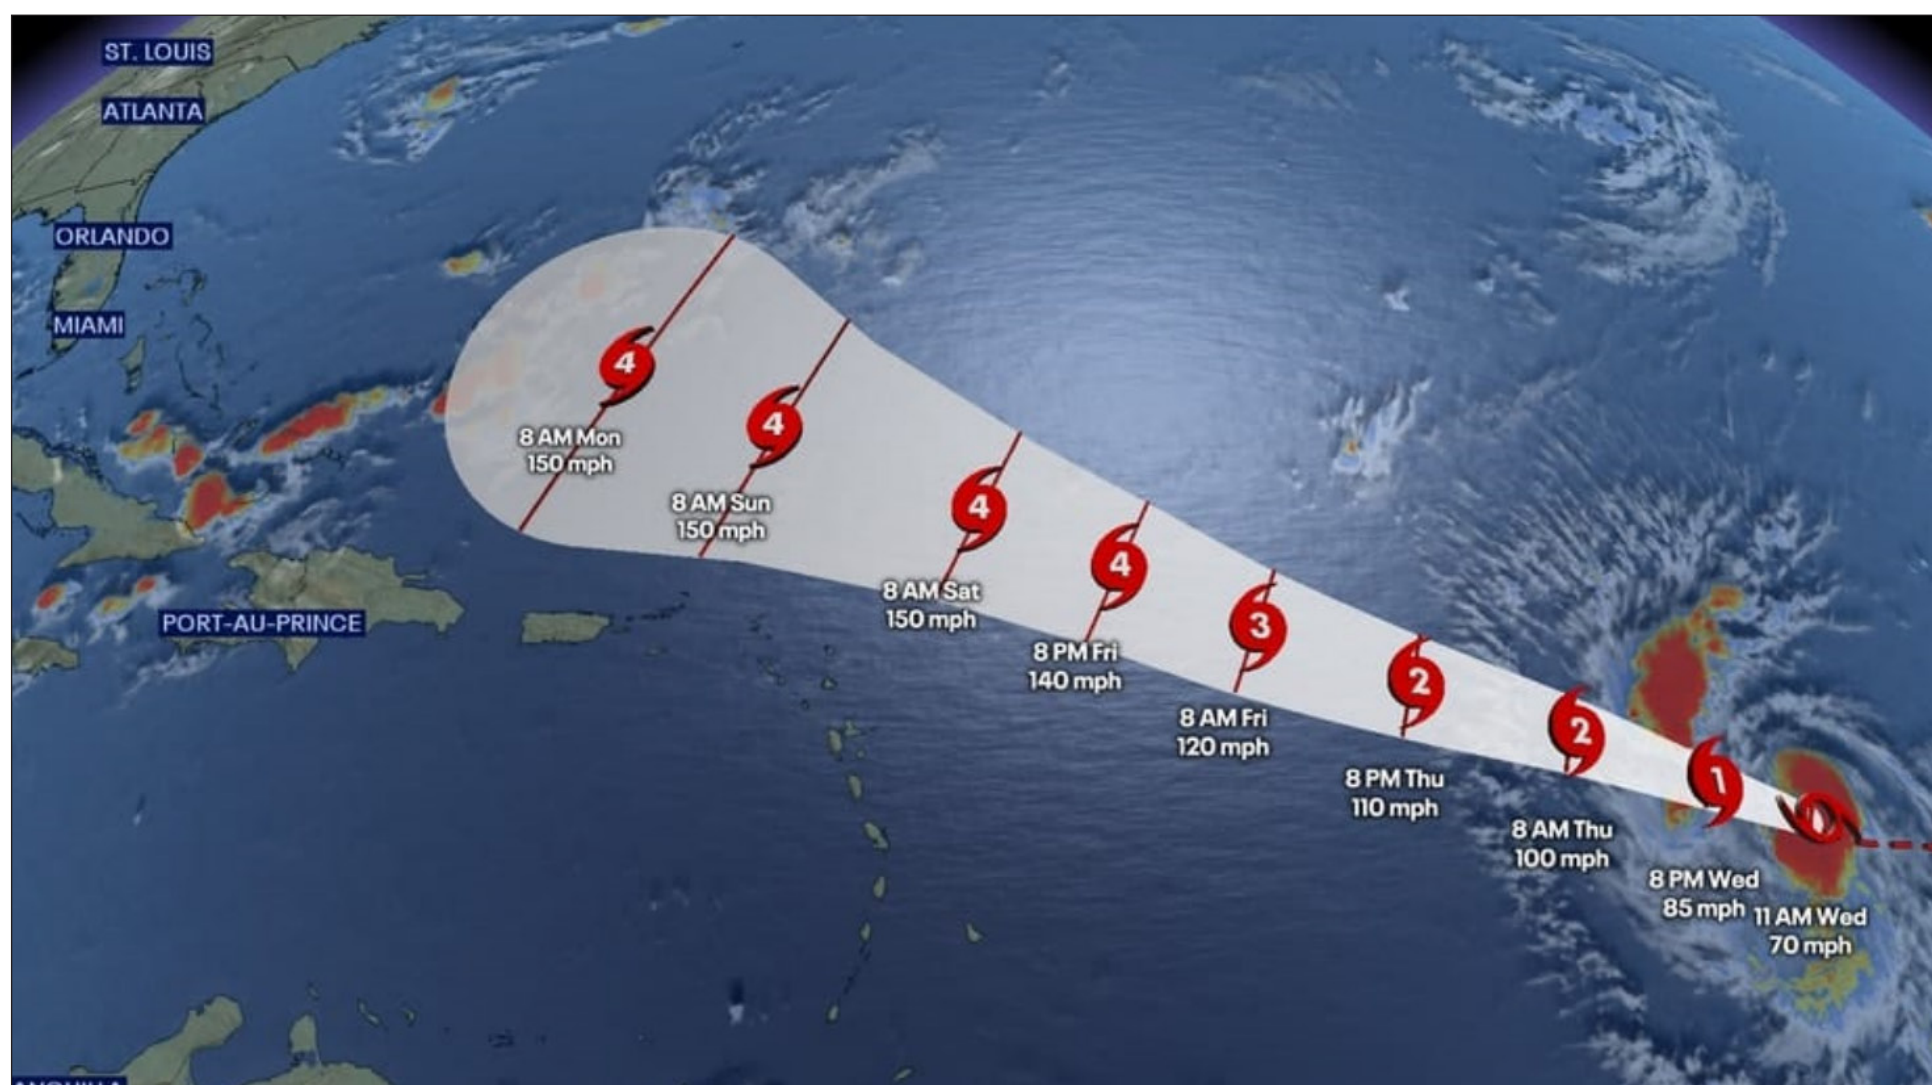

In Crisis, Seek Immediate Assistance

In situations of immediate danger or severe crisis, it is imperative to contact emergency services or a crisis hotline for immediate assistance.

In conclusion, offering assistance to individuals facing mental health challenges is a compassionate act that can significantly impact their journey toward recovery. While providing emotional support and understanding, remember that you are not a replacement for professional help. Encourage them to seek assistance from trained mental health experts, and continue to be a caring and understanding presence in their life as they navigate their path to improved mental well-being.

Tropical Storm Lee

Gaining Strength in Atlantic, Poses Potential Threat to Caribbean

IN a recent development, Tropical Storm Lee has intensified as it traverses the expansive waters of the Atlantic, and meteorologists predict it will soon elevate to hurricane status as it approaches the Caribbean. The storm's current location is approximately 1,265 miles (2,040 kilometers) east-southeast of the northern Leeward Islands. Lee boasts maximum sustained winds of 65 mph (100 kph) and is making headway west-northwest at a pace of 14 mph (22 kph), as reported by the National Hurricane Center.

While forecasts do not anticipate a direct landfall, Lee is expected to pass just northeast of the British Virgin Islands. These islands are still in the process of recovering from the devastating impacts of hurricanes Maria and Irma, which struck in September 2017.

What's particularly concerning is Lee's rapid intensification. The storm is poised to transform into a hurricane later on Wednesday and is projected to further strengthen into a major hurricane within the next couple of days. This progression is attributed to Lee's passage over remarkably warm waters and a highly conducive, moist environment.

Lee stands as the 12th named storm of the Atlantic hurricane season, which typically spans from June 1 to November 30. Alarmingly, the National Ocean and Atmospheric Administration (NOAA) had previously issued a warning in August, foretelling an above-normal hurricane season for the year. Their forecast predicted a range of 14 to 21 named storms, with the potential for six to eleven of them to escalate into hurricanes. Among those, two to five could attain major hurricane status.

In a separate development within the realm of tropical weather systems, the Pacific Ocean witnessed the strengthening of Hurricane Jova. This hurricane, however, poses no immediate threat to land as it swirls far off the southwest coast of Mexico. Jova currently boasts winds at speeds of 85 mph (140 kph) and is situated approximately 640 miles (1,035 kilometers) south of the southern tip of Baja California. Its movement is west-northwest at a pace of 9 mph (15 kph).

The tracking and monitoring of these tropical storms and hurricanes remain of paramount importance to ensure preparedness and safety for the affected regions.

Summer 2023 Breaks Heat Records

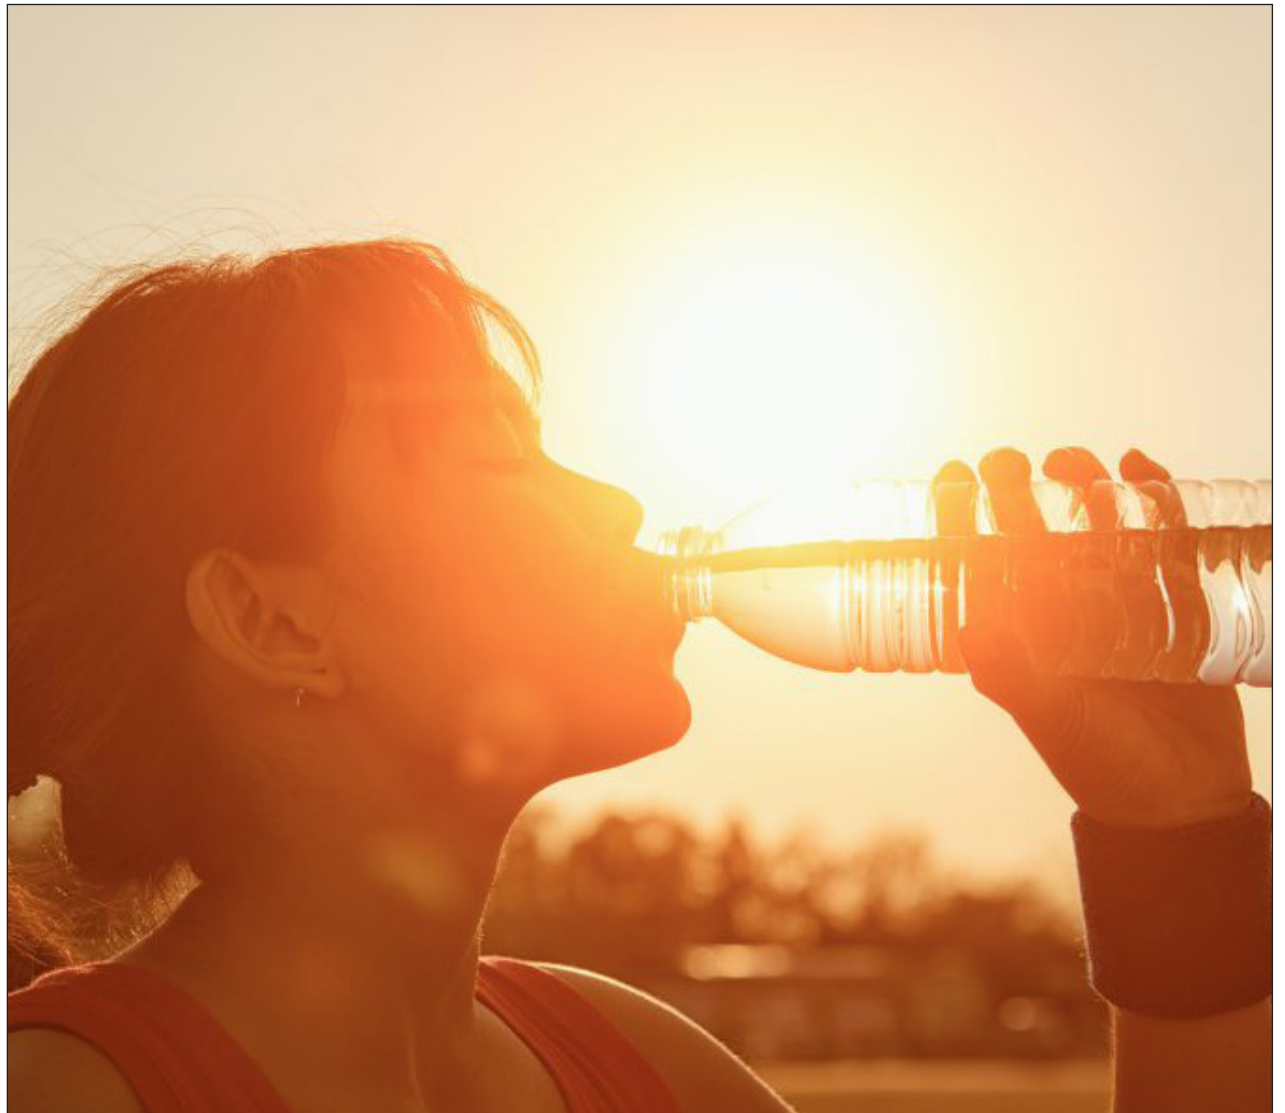

THIS summer has left an indelible mark in the annals of climate history, as scientists confirm that it was the hottest on record by a significant margin, setting alarming precedents for the planet's warming trend. Data from the European Union's Copernicus Climate Change Service reveals that the period from June to August marked the hottest summer since records began in 1940.

The global average temperature during this sweltering season reached 16.77 degrees Celsius (62.19 Fahrenheit), surpassing the 1990 to 2020 average by 0.66 degrees Celsius. This increase is notably higher than previous records, with typically minute temperature increments.

This announcement validates what many feared: it has been a scorching summer across the Northern Hemisphere, with regions like the United States, Europe, and Japan witnessing record-breaking heat waves and unprecedented ocean temperatures.

The summer of 2023 saw consecutive record-breakers: June became the hottest June ever recorded, followed by July, which also shattered previous records by a considerable margin. August, as reported by Copernicus, now claims the title of the hottest August in history, surpassing all other months this year except for July, with a global average temperature of 16.82 degrees Celsius – a staggering 0.31 degrees warmer than the 2016 record.

António Guterres, the United Nations Secretary-General, commented on this concerning data, stating, "The dog days of summer are not just barking; they are biting. Scientists have long warned what our fossil fuel addiction will unleash. Our climate is imploding faster than we can cope with extreme weather events hitting every corner of

the planet."

These soaring temperatures are estimated to have exceeded pre-industrial levels by 1.5 degrees Celsius, a crucial threshold to prevent the most catastrophic impacts of climate change, according to Copernicus. While scientists primarily focus on long-term global temperature trends, these temporary spikes offer a glimpse into what summers could become with 1.5 degrees of warming.

Petteri Taalas, Secretary-General of the World Meteorological Organization, remarked on the extreme conditions in the Northern Hemisphere, which saw devastating wildfires, health issues, disruptions in daily life, and lasting environmental damage.

The Southern Hemisphere has also witnessed unusually warm winters, and global ocean temperatures have been off the charts, contributing to the intensification of major hurricanes in the Atlantic and typhoons in the Pacific.

While it remains uncertain if 2023 will clinch the title of the hottest year on record, it is expected to come remarkably close. With four months left in the year, Copernicus reports that 2023 ranks as the second warmest year, just 0.01 degrees Celsius below 2016, which currently holds the record.

Scientists predict that next year could surpass these records, with the arrival of El Niño, a natural climate phenomenon that influences weather patterns and brings warmer sea-surface temperatures. Samantha Burgess, Deputy Director of Copernicus, emphasized that unless greenhouse gas emissions are curbed, climate records and extreme weather events will continue to plague society and ecosystems.

The summer of 2023 serves as an unequivocal reminder of the urgent need to address climate change and transition away from fossil fuels.

US Authorities Issue Recall of Eye Drops

One Fatality and Several Cases of Blindness Reported

U.S. health authorities have issued a new alert to citizens regarding the recall of two more eye drop products from the pharmaceutical market due to potential contamination risks, which could lead to vision problems and severe injuries.

The Food and Drug Administration (FDA) issued separate recall notices for eye drops distributed by Pharmedica and Apotex after both companies voluntarily withdrew multiple batches of their products from the market.

Pharmedica, based in Phoenix, confirmed the recall of two batches of 15% purely relaxing MSM eye drops on March 3, citing issues “that could lead to blindness.”

These over-the-counter drops are designed to treat eye irritation. The company has advised consumers to cease using the drops immediately and return them to the place of purchase. Nearly 2,900 bottles are affected by the recall, according to the company. The drops were manufactured in Arizona.

Last week, the FDA issued a separate recall notice from Apotex, involving six batches of prescription eye drops used to treat a form of glaucoma. The company initiated the recall after discovering cracks in some bottle caps. The drops are distributed as ophthalmic solution of brimonidine tartrate, 0.15%, and were sold between April 2022 and February 2023. Both companies claim that the recalls were made in consultation with the FDA.

This latest recall follows one made a month ago when eye drops manufactured in India were pulled from the market

due to their connection to a widespread outbreak of medication-resistant infections.

At that time, the FDA warned consumers and healthcare professionals to immediately stop buying and using EzriCare Artificial Tears or Delsam Pharma Artificial Tears. The use of these contaminated artificial tears increased the risk of eye infections that led to blindness and even death, according to the FDA. It was reported that one person lost their life, and at least five others suffered permanent vision loss from using these brands.

Furthermore, the FDA announced that Reckitt, a manufacturer of food, flavorings, and various products sold in the United States, had to recall two batches of infant formula cans due to possible contamination.

The 12.9-ounce units, intended for infant consumption, were recalled after suspicions that they may contain a bacterium called *cronobacter sakazakii*.

The recalled products include “ProSobee Simply Plant-Based Infant Formula” in 12.9 oz packaging, manufactured between August 2022 and September 2022. These products were distributed through retailers nationwide in the United States, Guam, and Puerto Rico. The affected lots can be identified by the numbers on the bottom of the cans: ZL2HZF and ZL2HZZ, both with a UPC code of 300871214415 and a “best by” date of ‘March 1, 2024.’ Reckitt reported that 145,000 units were withdrawn from the market. The FDA noted that the *cronobacter* bacterium poses a high health risk to humans.
